Toppling Trump Samuel J. Best, Jeffrey W. Ladewig, 2024-07-05 This book tells the story of the 2020 presidential election campaign exploring how Joe Biden secured the Democratic nomination and defeated Donald Trump in the general election It argues that Democratic Party elites paved the way for Biden's victory enabling him to overcome numerous campaign missteps to defeat one of the largest wealthiest most competitive fields in history It details how elites discouraged potential rivals from entering the race orchestrated rules to truncate the field and steered voters toward Biden's candidacy both directly and indirectly It shows how they helped the Biden campaign overcome early defeats in the first several contests and turn his campaign around And it shows the critical role they played in mobilizing partisans to help Biden win the general election campaign and thwarting efforts to undermine his victory Simply put the book demonstrates that Biden would not have won the White House without maneuvering and manipulation by the Democratic establishment

The End of White Politics Zerlina Maxwell, 2020-07-07 An MSNBC political analyst and former Hillary Clinton staffer examines the past and present problems of the Left and makes a compelling case for how to take back our government and secure a better future for

America In the entire history of the United States of America we've never elected a woman as our president And we've only had one president who was not a white man After working on two presidential campaigns for Barack Obama and Hillary Clinton MSNBC political analyst and SiriusXM host Zerlina Maxwell gained first hand knowledge of everything liberals have been doing right over the past few elections and everything they are still doing wrong Ultimately these errors worked in President Donald Trump's favor in 2016 he effectively ran a campaign on white identity politics successfully tapping into white male angst and resistance In 2020 after the Democratic Party's most historically diverse pool of presidential candidates finally dwindled down to Joe Biden once again an older white man Maxwell has posed the ultimate question what now liberals Fueled by Maxwell's trademark wit and candor *The End of White Politics* dismantles the past and present problems of the Left challenging everyone from scrappy young Bernie Bros to seasoned power players in the Billionaire Boys Club No topic is taboo whether tackling the white privilege that enabled Mayor Pete Buttigieg's presidential run the controversial HashtagActivism of the Millennial generation the massive individual donations that sway politicians toward maintaining the status quo of income inequality or the lingering racism that debilitated some Democratic presidential contenders and cut their promising campaigns short Maxwell pulls no punches in her fierce critique However underlying all of these individual issues Maxwell argues that it's the liberal minded party's struggle to engage women and communities of color and its preoccupation with catering to the white male working class that threatens to be its most lethal shortfall The times and the demographics are changing and in order for progressive politics to prevail we must acknowledge our shortcomings take ownership of our flaws and do everything in our power to level the playing field for all Americans *The End of White Politics* shows exactly how and why progressives can lean into identity politics empowering marginalized groups and uniting under a common vision that will benefit us all TIME 100 Must Read Books of 2020 Witty and piercing TIME
