What PEAFF does do is expose a holistic environment and context of Methods Artefacts Culture and Environment that all of those people exist within The glue that brings all the parts together into a choreographed whole which makes the whole so much more than just the summation of its parts PEAFF asserts that people working within the Strategising and Roadmapping phases of Transformation already know how to do what they do The problem is not them The problem is the context Methods Artefacts Cultural and Environmental things that they are forced to work within PEAFF aims to increase the maturity effectiveness and efficiency of that context enabling people to achieve their full potential Increasing the maturity of the context they work within to one that supports enables and makes their work easier rather than one which hinders impedes and makes their work more difficult PEAFF places its emphasis on the one practical issue that causes the most problems for EA efforts how to get started and keep going delivering real and verifiable results within the constraints and complex challenging realities of any large Enterprise In a sense PEAFF was born out of failure out of identifying all the myriad of ways in which EA efforts fail in real business practice and then devising ways to prevent these sources of failure from occurring
