Jerryson,2015-11 Violence has always played a part in the religious imagination from symbols and myths to legendary battles from colossal wars to the theater of terrorism *The Oxford Handbook of Religion and Violence* surveys intersections between religion and violence throughout history and around the world The forty original essays in this volume include overviews of major religious traditions showing how violence is justified within the literary and theological foundations of the tradition how it is used symbolically and in ritual practice and how social acts of violence and warfare have been justified by religious ideas The essays also examine patterns and themes relating to religious violence such as sacrifice and martyrdom which are explored in cross disciplinary or regional analyses and offer major analytic approaches from literary to social scientific studies The contributors to this volume innovative thinkers who are forging new directions in theory and analysis related to religion and violence provide novel insights into this important field of studies By mapping out the whole field of religion and violence *The Oxford Handbook of Religion and Violence* will prove an authoritative source for students and scholars for years to come

Religious Zionism, Jewish Law, and the Morality of War Robert Eisen,2017-09-01 Ever since the state of Israel was

established in 1948 it has been plagued by war and that has presented religious Zionists with an immense challenge Jewish law prior to 1948 includes little material on war because it developed during centuries when Jews had neither a state nor an army The leading rabbis of the religious Zionist community have therefore had to create an entire body of laws on this subject where practically none had existed beforehand These rabbis have responded to the challenge with remarkable energy and ingenuity Religious Zionist rabbis have produced a corpus of laws on war that is both comprehensive and nuanced and these laws now serve as a critical source of guidance for Orthodox Israelis serving in their country's military The present study is a pioneering work on this fascinating chapter in the history of Jewish law a chapter that up to now has received relatively little attention from academic scholars Robert Eisen examines how five of the most prominent rabbis in the religious Zionist community have dealt with key moral issues in war The figures include R Abraham Isaac Kook R Isaac Halevi Herzog R Eliezer Waldenberg R Sha ul Yisraeli and R Shlomo Goren Eisen also examines how the positions of these rabbis compare with those of international law These explorations provide critical insight into the worldview of religious Zionism which in recent years has become increasingly influential in Israeli politics

Shari`a in the Secular State Russell Powell, 2016-06-10 Words in both law and religion can shape power relationships and are often highly disputed Shari'a lies within the overlap of these two spheres and provides a unique subject for the study of meaning in that liminal space This book contributes important insights related to Islamic jurisprudence and secularism in the Turkish context and regarding the role of language in contested legal and religious contexts The study begins by providing a historical framework for the ideas and terms covered including concepts of religion in general Shari'a in particular and secularism in the Turkish state It goes on to examine empirical research to describe and analyze contemporary Turkish understandings of religion and Shari'a The author's research indicates that there is often a disconnect between supporting the adoption of Shari'a and supporting the regulation of everyday behavior through civil codes Thus Shari'a seems to have taken on new meanings as groups have sought either to appropriate or criticize it It is a quintessential example of fractured and contextual meaning at the center of both religious and legal traditions This book is essential reading for both academics and those interested in law linguistics history political science anthropology sociology religious studies or Near Eastern studies
