Beginning Mo Pai Nei Kung Expanded Edition:

The Cygnus Key Andrew Collins, 2018-05-15 New evidence showing that the earliest origins of human culture religion and technology derive from the lost world of the Denisovans Explains how G bekli Tepe and the Giza pyramids are aligned with the constellation of Cygnus and show evidence of enhanced sound acoustic technology Traces the origins of G bekli Tepe and the Giza pyramids to the Denisovans a previously unknown human population remembered in myth as a race of giants Shows how the ancient belief in Cygnus as the origin point for the human soul is as much as 45 000 years old and originally came from southern Siberia Built at the end of the last ice age around 9600 BCE G bekli Tepe in southeast Turkey was designed to align with the constellation of the celestial swan Cygnus a fact confirmed by the discovery at the site of a tiny bone plaque carved with the three key stars of Cygnus Remarkably the three main pyramids at Giza in Egypt including the Great Pyramid align with the same three stars But where did this ancient veneration of Cygnus come from Showing that Cygnus was once seen as a portal to the sky world Andrew Collins reveals how at both sites the attention toward this star group is linked with sound acoustics and the use of musical intervals discovered thousands of years later by the Greek mathematician Pythagoras Collins traces these ideas as well as early advances in human technology and cosmology back to the Altai Baikal region of Russian Siberia where the cult of the swan flourished as much as 20 000 years ago He shows how these concepts including a complex numeric system based on long term eclipse cycles are derived from an extinct human population known as the Denisovans Not only were they of exceptional size the ancient giants of myth but archaeological discoveries show that this previously unrecognized human population achieved an advanced level of culture including the use of high speed drilling techniques and the creation of musical instruments The author explains how the stars of Cygnus coincided with the turning point of the heavens at the moment the Denisovan legacy was handed to the first human societies in southern Siberia 45 000 years ago catalyzing beliefs in swan ancestry and an understanding of Cygnus as the source of cosmic creation It also led to powerful ideas involving the Milky Way s Dark Rift viewed as the Path of Souls and the sky road shamans travel to reach the sky world He explores how their sound technology and ancient cosmologies were carried into the West flowering first at G bekli Tepe and then later in Egypt s Nile Valley Collins shows how the ancient belief in Cygnus as the source of creation can also be found in many other cultures around the world further confirming the role played by the Denisovan legacy in the genesis of human civilization

with regards to the afterlife In the present life the goal of Mo Pai is to develop supernatural abilities capable of aiding an individual both in self defense and in the rejuvenation of the physical body Concerning the afterlife the true master of Mo Pai reserves the ability to consciously navigate their soul after the death of the physical body freeing themselves from the continuous cycle of death and rebirth The greatest Mo Pai practitioner on Earth today Master John Chang has publically displayed his extraordinary developments to the world by performing many spectacular abilities on video such as electrokinesis pyrokinesis levitation suspended animation and telekinesis In order to attain supernatural capacities this ancient training augments the innate potential of the human body through gathering and harnessing the two fundamental life force energies known as Yin Chi and Yang Chi These two energies are abundant in nature and play an important role in sustaining the human body Developing these vital energies to levels that many would consider unnatural the Mo Pai student quickly gains an edge when compared to the average human Included in this book is an analysis of the Mo Pai training and the techniques used for gathering manipulating and finally combining the two fundamental vital energies of Yang Chi and Yin Chi

Nei Kung Kosta Danaos, 2002-02-01 Explains the science behind the practice of nei kung the elemental nature of yin and yang energy the two components of ch i and how learning to control the yang energy in our ch i can result in the release of dynamic energy Establishes the existence and understanding of nei kung in the practices of many of the world s ancient cultures Includes a step by step guide to the meditation that forms the basis of the practice of nei kung By Kosta Danaos author of The Magus of Java and apprentice to an immortal of the Mo Pai tradition In 1994 Kosta Danaos was accepted as a student by John Chang a Chinese Javanese Taoist in the Mo Pai tradition and a master of nei kung the practice of harnessing and controlling our body s bioenergy or ch i Nei Kung The Secret Teachings of the Warrior Sages describes the practice of nei kung and how learning to control our ch i can result in the release of dynamic energy that can be used for healing pyrogenesis telekinesis levitation telepathy and more Danaos suggests that both components of ch i yin and yang energy are fundamental to the earth and to life and were recognized and used in many of the world s ancient cultures Though we have forgotten how to access them these components are in fact elemental parts of us The author explains that we first must open our minds to the fact that the power of ch i is real Next in learning to control our ch i as a whole we must learn to channel our yang energy in productive ways a potential we all possess To help readers understand their capacity to connect with this inner elemental power the author offers a fascinating blend of teachings that include sound scientific theories explaining much of the magic of nei kung He also offers historical linguistic artistic and literary proof of the presence and understanding of nei kung throughout the ages and a step by step introduction to several types of simple meditation fundamental to directing one s ch i With his engaging storytelling and disarming humor his physics based explanations for seemingly mystical phenomena and his reassurances that he s really no different from the rest of us Kosta Danaos shows us that once we remember our capacity to harness our yang energy we can change ourselves and our world

Seeking the

Master of Mo Pai Jim McMillan, 2011-11-21 In his search to transcend the boundaries of our conceived physical reality and deepen his own practice in the martial arts Jim McMillan embarked on an unprecedented journey to first find an obscure teacher to help guide him towards an unknown destination and second to understand the possibilities that are open to anyone with the desire and fortitude to foster a practice while recognizing the limitations being the first Western student to study a lost art engendered This journey is completely unique and the path veers across the martial arts ancient healing techniques and mysticism Jim McMillan encounters and describes these experiences with such humility and gratitude that their incredible nature feels completely appropriate in this world and honestly possible for individuals with the authentic desire to eclipse the confines of preconceived limitations This story serves as a challenge for individuals to both open the mind to a world of possibilities while connecting the body and soul to the energy that surrounds us I accept this invitation and hope others will too Peter Swanz ND FHANP Jim s experience of the Mo Pai is one of magic mystery excitement and betrayal The book provided me with great hope and reconciliation of the true human nature in my heart which I always subconsciously sensed It is also an urgent call in this precarious time for people of all races to unite in finding the lost and forgotten meaning within by becoming aware of what we really are and demanding God s given knowledge to be released by various powers that be without prejudice and for the benefit of all continuing humanity Peter Proksch Mo Pai student
