Beijings Games What The Olympics Mean To China Latin American Silhouettes:

Beijing's Games Susan Brownell, 2008 Why is hosting the Olympic Games so important to China What is the significance of a quintessential symbol of Western civilization taking place in the heart of the Far East Will the Olympics change China or will China change the Olympics Susan Brownell sets the historical and cultural contexts for the 2008 Beijing Olympics Games by placing it within the context of China's hundred year engagement with the Olympic movement to illuminate what the Games mean to China and what the Beijing Olympic Games will mean for China's relationship with the outside world Brownell's deeply informed analysis ranges from nineteenth century orientalism to Cold War politics and post Cold War China bashing Drawing on her more than two decades of engagement in Chinese sports the author presents evocative stories and first person accounts to paint a human picture of the passion that many Chinese people feel for the Olympic Games It will also be essential reading for journalists and sports enthusiasts who want to understand the fascinating story behind the Beijing Olympics

Martinez, Kevin Latham, 2013-10-18 This book focuses on the processes of documenting the Beijing Olympics ranging from the visual television and film to radio and the written word and the meanings generated by such representations What were the key stories and how were they chosen What was dramatised Who were the heroes Which clashes were highlighted and how What sorts of stories did the notion of human interest generate Did politics take a backseat or was the topic highlighted repeatedly Thus the focus was not on the success or failure of this event but on the ways in which the Olympics Games as international and historic events are memorialised by observers The key question that this book addresses is How far would the Olympic coverage fall into the patterns of representation that have come to dominate Olympic reporting and what would China as a discursive subject bring to these patterns This book was previously published as a special issue of *Sport in Society*

Owning the Olympics Monroe Price, Daniel Dayan, 2009 From the moment they were announced the Beijing Games were a major media event and the focus of intense scrutiny and speculation In contrast to earlier such events however the Beijing Games are also unfolding in a newly volatile global media environment that is no longer monopolized by broadcast media The dramatic expansion of media outlets and the growth of mobile communications technology have changed the nature of media events making it significantly more difficult to regulate them or control their meaning This volatility is reflected in the multiple well publicized controversies characterizing the run up to Beijing 2008 According to many Western commentators

the People's Republic of China seized the Olympics as an opportunity to reinvent itself as the New China. A global leader in economics, technology, and environmental issues with an improving human rights record. But China's maneuverings have also been hotly contested by diverse global voices including prominent human rights advocates all seeking to displace the official story of the Games. Bringing together a distinguished group of scholars from Chinese studies, human rights, media studies, law, and other fields. Owning the Olympics reveals how multiple entities including the Chinese Communist Party itself seek to influence and control the narratives through which the Beijing Games will be understood. Publisher's description

Encoding the Olympics Luo Qing, Giuseppe Richeri, 2013-09-13 Encoding the Olympics assembles a uniquely representative international team of media experts to provide a comprehensive review of the global impact of media and cultural communications associated with the Beijing 2008 Olympics. Commissioned by the IOC, this pioneering comparative study, the largest in Olympic Games research, provides a ground-breaking panoramic cross-cultural perspective on media responses to the leading sports event of the modern world. The representative team that undertook the study includes media commentators and political analysts, sport and media journalists, Sinologists, and observers of the Asian Pacific Rim, academics in Olympic Studies and media and communication studies, scholars of the cultural and sociology studies of sport and festival, and events managers. Encoding the Olympics provides a unique encyclopaedic study that will serve as a versatile resource at several levels as a textbook or source reference for academic institutions, media, public relations agencies that facilitate the work of inter-cultural exchange organisations, and international communication departments of multinational enterprises and international NGOs. This volume analyses global media responses to a mega sport event on a scale never before attempted. This book was previously published as a special issue of the International Journal of the History of Sport. **The Beijing Olympiad** Paul Close, David Askew, Xu Xin, 2006-12-05 The stage is set for the Beijing Olympiad to be the greatest mega event sporting or otherwise in history. Still the issues taxing many minds include whether the Beijing Games will be successful, whether they will be wrought with and wrecked by troubles, and who they will benefit. What value will the 2008 Games be to the people of China? Will they mainly serve the purposes of the dominant political, economic, and cultural groups at and between the local, regional, and global levels of modern social life? The Beijing Olympiad examines these among other questions, providing a range of original insights of interest to an array of scholars, researchers, and students from Sports Studies to Sociology, Politics, Economics, International Relations, and Legal Studies. The Beijing Olympics: Promoting China Kevin Caffrey, 2013-09-13 The Beijing 2008 Olympic ceremonies were spectacular performances and technological accomplishments by the People's Republic of China. However, the audience in Beijing was only the most overt element of a global audience receiving the message of the Games. For this global audience, the Beijing performances were a harbinger of wider regional and international ambitions, a message of intent that pointed to a larger Chinese plan to a degree not seen since the Ming dynasty. New Chinese ambitions embrace both soft power and hard power. The actor in this political drama of

international scope is the Chinese state and its political ambitions on the world stage The Beijing Olympics can be seen as its opening act and the audience as global Rather than the kind of morality play that is typically used in China to educate the people in politics this new production a production on many levels was one aimed at audiences all around the world and one that was a calculated expression of realpolitik This book was previously published as a special issue of the International Journal of the History of Sport

Beijing 2008: Preparing for Glory J.A. Mangan, Dong Jinxia, 2013-09-13 Beijing 2008 Preparing for Glory Chinese Challenge in the Chinese Century brings together international scholars with an interest in sport and politics and sinologists with an interest in China past present and future to explore global reaction to the Beijing Olympics China's anticipated moment of glory on the world stage The Beijing Olympics was first and foremost a political act of assertion It was also a statement of national intent the culmination of ideological effort going back to 1949 and the outcome of political social cultural and economic change From the moment of the birth of the New China sport has been viewed as a means of internal and external projection illustrating the capacity of the system and people to more than hold their own with those of other nations In short sport has been the chosen stage on which the Chinese perform in pursuit of world recognition respect and esteem This assertion is not hard to understand China's century of humiliation at the hands of first the West and then Japan remains a traumatic experience Beijing 2008 was to assist the restoration of China's national self esteem He Zhenliang Chairman of the IOC Commission for the Culture of Olympic Education has remarked pointedly that the most significant outcome of the Beijing Games will be the elevation of the self confidence and sense of pride of the Chinese people Beijing 2008 was an act of political self renewal on the world stage This Collection demonstrates that sport is inseparable from politics This book was previously published as a special issue of the International Journal of the History of Sport

Sport, Revolution and the Beijing Olympics Grant Jarvie, Dong-Jhy Hwang, Mel Brennan, 2008-04-01 The 2008 Olympic Games will be held in Beijing but many human rights activists support a boycott They liken the circumstances to previous governments that used the games to glorify their regimes most notoriously the Nazis in 1936 What has led to this perception and is it fair Sport Revolution and the Beijing Olympics is a cultural history of sport in China and challenges many such ingrained Western assumptions The authors unpick the relationship of sport to imperialism and revolution and examine its significance in both China and Taiwan at governmental and everyday levels In the process they successfully debunk harmful myths such as the prevalence of drugs in Chinese sport among women athletes and present a balanced view that is a much needed corrective to popular understanding
