A Manual of the Reformed Church in America Edward Tanjore Corwin, 1869 [Black Authors and Illustrators of Books for Children and Young Adults](#) Barbara Thrash Murphy, Deborah L. [A Manual of the Reformed Church in America \(formerly Ref. Prot. Dutch Church\) 1628-1878](#) Edward Tanjore Corwin, 1879 *Past and Present of Syracuse and Onondaga County, New York* William Martin Beauchamp, 1908 **Bird Books and Bird Art** J. Anker, 2014-11-14 *The modern part of An universal history, from the earliest accounts to the present time*, 1783 *An Universal History*, 1783 [Virtual Voyages](#) Paul Longley Arthur, 2011-10 *Virtual Voyages* is a fascinating account of the European discovery of the elusive great south land, told through the literature of imaginary voyages. Written at the height of the era of European maritime exploration, these bizarre and captivating tales, with their wildly imaginative visions of antipodean inversion and strangeness, reveal a hidden history of attitudes to colonization. By

exposing the relationship between myth and reality in the antipodes this book casts new light on the power of fiction to influence history In the post colonial studies field books about travel writing and empire have tended to focus on the high period of nineteenth century imperialism and on the colonial settings of Africa and India This book offers a fresh perspective by focussing on the eighteenth century and referring to the geographical region of Australia and the Pacific which has had far less attention The book also breaks new ground by being the first to approach the genre of the imaginary voyage from a post colonial perspective In addition to the new insights into European colonialism that it offers the book illustrates many broader themes in eighteenth century history and thought These include connections between the rise of science and modern imperialism the development of narrative history and fiction and the influence of romanticism the evolution of the early novel in Britain and France and the role of mythology in the development of national identity

The Role of Translators in Children's Literature Gillian Lathey, 2010-09-13 This book offers a historical analysis of key classical translated works for children such as writings by Hans Christian Andersen and Grimms tales Translations dominate the earliest history of texts written for children in English and stories translated from other languages have continued to shape its course to the present day Lathey traces the role of the translator and the impact of translations on the history of English language children's literature from the ninth century onwards Discussions of popular texts in each era reveal fluctuations in the reception of translated children's texts as well as instances of cultural mediation by translators and editors Abridgement adaptation and alteration by translators have often been viewed in a negative light yet a closer examination of historical translators' prefaces reveals a far more varied picture than that of faceless conduits or wilful censors From William Caxton's dedication of his translated History of Jason to young Prince Edward in 1477 to the intent he may beginne to lerne read Englissh to Edgar Taylor's justification of the first translation into English of Grimms tales as a means of promoting children's imaginations in an age of reason translators have recorded in prefaces and other writings their didactic religious aesthetic financial and even political purposes for translating children's texts
