Bryjak, 2013-07-19 An Engaging and Accessible Overview of Crime and Justice in America. For all their interest in crime, most Americans know very little about the reality of crime and the criminal justice system in the United States, and most of what Americans do know is a loose collection of accumulated truths, half truths, and outright fallacies. *Myths and Realities of Crime and Justice: What Every American Should Know*, Second Edition, provides a concise but thorough overview of criminal behavior, crime, and the criminal justice system in the United States. Using up-to-date social science research to debunk many of the beliefs Americans hold about crime, the book examines key topics such as serial killers and mass murders, gun violence, criminal victimization, identity theft, policing, and police corruption, plea bargaining, jury nullification, wrongful convictions, the death penalty, and the CSI Effect. The fully revised and updated second edition of this popular text includes the most recent crime and criminal justice data and covers several recent high-profile crimes, including the Newtown shooting, the Jerry Sandusky case, and the Trayvon Martin case. It also includes new sections on recent trends in crime rates, street gangs, and hate crimes. Ideally suited for students in criminal justice programs as well as professionals who work within or in tandem with the criminal justice system, *Myths and Realities of Crime and Justice: What Every American Should Know*, Second Edition, is a thorough, engaging, and highly relevant portrait of crime and justice in America. **Leadership in Education, Corrections and Law Enforcement** Anthony H. Normore, Brian D. Fitch, 2011-11-23 *Leadership in Education, Corrections and Law Enforcement: A Commitment to Ethics, Equity, and Excellence* fills a unique gap in the knowledge base at the juncture between leadership, ethics, law, and how public institutions/organizations understand and practice the essence of all three. **Fifty Key Thinkers in Criminology** Keith Hayward, Shadd Maruna, Jayne Mooney, 2009-12-04 *Fifty Key Thinkers in Criminology* brings the history of criminological thought alive through a collection of fascinating life stories. The book covers a range of historical and contemporary thinkers from around the world, offering a stimulating combination of biographical fact with historical and cultural context. A rich mix of life and times detail and theoretical reflection is designed to generate further discussion on

some of the key contributions that have shaped the field of criminology Featured profiles include Cesare Beccaria Nils Christie Albert Cohen Carol Smart W E B DuBois John Braithwaite Fifty Key Thinkers in Criminology is an accessible and informative guide that includes helpful cross referencing and suggestions for further reading It is of value to all students of criminology and of interest to those in related disciplines such as sociology and criminal justice
