Chicago Tribune: The digital revolution has contributed to the world in many positive ways but we are less aware of the Internet's deeply negative effects. *The Internet Is Not the Answer* by longtime Internet skeptic Andrew Keen offers a comprehensive look at what the Internet is doing to our lives. The book traces the technological and economic history of the Internet from its founding in the 1960s through the rise of big data companies to the increasing attempts to monetize almost every human activity. In this sharp, witty narrative informed by the work of other writers, reporters and academics as well as his own research and interviews, Keen shows us the tech world's warts and all. Startling and important. *The Internet Is Not the Answer* is a big picture look at what the Internet is doing to our society and an investigation of what we can do to try to make sure the decisions we are making about the reconfiguring of our world do not lead to unpleasant unforeseen aftershocks. Andrew Keen has written a very powerful and daring manifesto questioning whether the Internet lives up to its own espoused values. He is not an opponent of Internet culture; he is its conscience and must be heard.
