The Art of Allusion Sonja Drimmer, 2018-09-21 At the end of the fourteenth and into the first half of the fifteenth century Geoffrey Chaucer John Gower and John Lydgate translated and revised stories with long pedigrees in Latin Italian and French Royals and gentry alike commissioned lavish manuscript copies of these works copies whose images were integral to the rising prestige of English as a literary language Yet despite the significance of these images manuscript illuminators are seldom discussed in the major narratives of the development of English literary culture The newly enlarged scale of English manuscript production generated a problem namely a need for new images Not only did these images need to accompany narratives that often had no tradition of illustration they also had to express novel concepts including ones as foundational as the identity and suitable representation of an English poet In devising this new corpus manuscript artists harnessed visual allusion as a method to articulate central questions and provide at times conflicting answers regarding both literary and cultural authority Sonja Drimmer traces how just as the poets embraced intertextuality as a means of invention so did illuminators devise new images through referential techniques assembling adapting and combining images from a range of sources in order to answer the need for a new body of pictorial matter Featuring more than one hundred illustrations twenty seven of them in color *The Art of Allusion* is the first book devoted to the emergence of England's literary canon as a visual as well as a linguistic event

Chaucer and the Death of the Political Animal Jameson S. Workman, 2015-10-21 Drawing from classical myth the history of philosophy literature film music and painting Workman connects the artistic claims of Chaucer and tests them against similar gestures in the history of philosophy and literature What results is a radical retake on Chaucer as a philosopher and poet upending any preconceived views

The Manuscript and Meaning of

Malory's Morte Darthur Kevin Sean Whetter, 2017 An examination of the rubricated letters in the Morte makes a convincing case for the design being by Malory himself The red ink names that decorate the Winchester manuscript of Malory's Morte Darthur are striking yet until now no one has asked why the rubrication exists This book explores the uniqueness and thematic significance of the physical layout of the Morte in its manuscript context arguing that the layout

suggests and the correlations between manuscript design and narrative theme confirm that the striking arrangement is likely to have been the product of authorial design rather than something unusual dreamed up by patron scribe reader or printer The introduction offers a thorough account of not only the textual tradition of the Morte but also the ways in which scholarship to date has not done enough with the manuscript contexts of Malory's *Arthuriad* The book then goes on to establish the singularity and likely provenance of Winchester's rubrication of names In the second half of the study the author elucidates the narrative significance of this rubrication pattern outlining striking connections between manuscript layout and major narrative events characters and themes He suggests that the manuscript mise en page underscores Malory's interest in human character and knighthood creating a memorializing function similar to the many inscribed tombs that dominate the landscape of the Morte's narrative pages In short Winchester's design creates a memorializing tomb for Arthurian chivalry
