

The programmable scanner that hits the road when you do. **Bearcat® 260** mobile scanner.

Keep up with police and fire calls, amateur radio operators, and other transmissions while you're on the road. With the Bearcat® 260 mobile scanner. Designed with police and fire department cooperation, its unique, practical shape and special two-position mounting bracket makes hump mounted or under dash installation possible in any vehicle. Incorporated in its rugged, all metal case is a specially positioned speaker delivering 3 watts of crisp, clear audio.

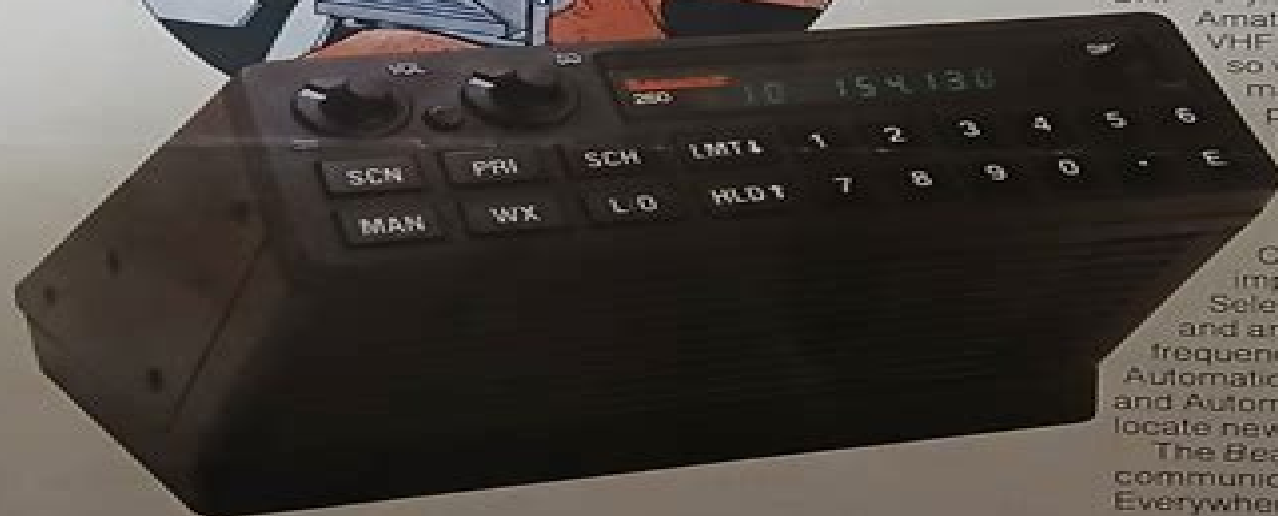

Inside the car, the bright green fluorescent display clearly indicates frequency and channel, even in sunlight. The electro-luminescent keyboard backlights each key so every function is clearly visible, even in darkness. You can adjust keyboard and display lighting with the dim control. And the keys "chirp" to confirm each command.

The Bearcat 260 covers eight bands and 16 channels, including four public service bands (low, high, UHF and UHF-T), 2-meter and 70-centimeter Amateur bands... plus extended VHF and UHF ranges. And it does so with amazing sensitivity made possible by Electra's patented Track Tuning which peaks each transmission automatically. There's even a special key for "instant" weather bulletins.

Plus, there's a Priority Channel so you never miss important messages; patented Selective Scan Delay, when "calls and answers" are on the same frequency; Direct Channel Access; Automatic Lockout to bypass channels; and Automatic and Manual Search to locate new frequencies.

The Bearcat 260. For all the communications you need to hear. Everywhere you want to go.
