Becoming Qualitative Researchers An Introduction 5th Edition:

Becoming Qualitative Researchers Corrine Glesne, 2015-01-06 Beginning researchers get an overview of qualitative research through a concise look at the practice of conducting research and the theory and debates that keep qualitative inquiry vibrant. Ideal for introducing the novice researcher to the theory and practice of qualitative research, this text opens students to the diverse possibilities within this inquiry approach while helping them understand how to design and implement specific research methods. The author's accessible writing style, the wealth of examples, and the numerous exercises provide opportunities for practicing and refining the skills of becoming a qualitative researcher. The new edition focuses on the development of research proposals. Ch 2 the history and concerns of institutional review boards IRBs and issues qualitative researchers sometimes confront when submitting proposals. Ch 6 greater information and examples on coding and thematic analysis while also introducing other approaches to data analysis. Ch 7 and arts based research through a chapter that encourages consideration of creative ways to approach and represent inquiry. Ch 9 Chapter 10 looks at sharing research results through participation at conferences and in publications.

Becoming Qualitative Researchers Corrine Glesne, Alan Peshkin, 1992 This gracefully written text takes the reader through each stage of the qualitative research process: research design, pilot studies, interviewing techniques, use of theory, data analysis, and report writing. Features unique chapters on rapport and subjectivity and one on ethics in qualitative research. Uses the voices and experiences of typical graduate students to engage readers in understanding the nature, methods, and problems encountered in carrying out qualitative studies. Presents the newest thinking in qualitative research: Postmodern Ethnography, including discussions of issues of power and control in relation to knowledge; how history and culture shape the researcher's perspective; and how the researcher and researched affect each other. **BOOK COVER**

Designing Qualitative Research Catherine Marshall, Gretchen B. Rossman, 2011 This popular text provides useful and pragmatic guidance for developing and successfully defending proposals for qualitative inquiry. The Fifth Edition addresses the advances and challenges presented by developments and new applications while providing direct guidance. Focusing on the proposal stage of research, this edition allows the reader to have a clear plan for data analysis and for the challenging varieties of final reports of qualitative inquiries. The new edition includes expanded coverage of ethics analysis processes and approaches and is full of updated vignettes that illustrate the methodological challenges that face today's qualitative researcher. This edition also includes discussions about distance-based research such as email interviews and online discussion groups; the implications of postmodern turns; integrating archival material in qualitative research; and creative ways of presenting the research. This text is an invaluable resource to teachers and students of research methods across disciplines and is a must for the library of those using qualitative approaches.

Qualitative Dissertation Methodology Nathan Richard Durdella, Nathan Durdella, 2017-12-29 Drawing from the challenges the author has seen in supervising dissertation students, the book breaks

down the dissertation chapter into smaller pieces providing specific and detailed advice on how to frame the chapter identify a research setting work with data sources develop data collection instruments articulate a data analysis procedure and adopt a reflexive stance on research roles **Conducting High-Quality Longitudinal Studies of College Students** David J.

Nguyen,Kristen A. Renn,2025-09-02 This guide informs the construction and execution of studies exploring college student development over time Longitudinal studies represent a gold standard for understanding college student experiences and outcomes yet many scholars partake in single time surveys and interviews to avoid the challenges that occur during prolonged investigation This book walks researchers through each step of the process including strategies for avoiding mistakes in design coping with unexpected variables and learning lessons from real world research experiences This volume is a useful companion for educational researchers considering planning or launching longitudinal designs and it also functions as a practical supplement for graduate courses focusing on research methods and or college students *Research Methodology* Dr. Rubi Dutta,Mr. Subham Chatterjee ,2025-03-10
