Bayesian Reasoning and Machine Learning David Barber, 2012-02-02 A practical introduction perfect for final year undergraduate and graduate students without a solid background in linear algebra and calculus *Integrated Formal Methods* Nikolai Kosmatov, Laura Kovács, 2024-11-12 This volume LNCS constitutes the refereed proceedings of the 19th International Conference on Integrated Formal Methods IFM 2024 during 13-15 November 2024 held in Manchester UK. The 19 full papers presented in this volume were carefully reviewed and selected from 58 submissions. The conference focuses on all aspects of the design of integrated techniques including language design, verification and validation, automated tool support and the use of such techniques in software engineering practice. *Machine Learning Methods with Noisy, Incomplete or Small Datasets* Jordi Solé-Casals, Zhe Sun, Cesar F. Caiafa, Toshihisa Tanaka, 2021-08-17 Over the past years businesses have had to tackle the issues caused by numerous forces from political, technological and societal environment. The changes in the global market and increasing uncertainty require us to focus on disruptive innovations and to investigate this phenomenon from different perspectives. The benefits of innovations are related to lower costs, improved efficiency, reduced risk and better response to the customers' needs due to new products, services or processes. On the other hand, new business models expose various risks such as cyber risks, operational risks, regulatory risks and others. Therefore, we believe that the entrepreneurial behavior and global mindset of decision makers significantly contribute to the development of innovations which benefit by closing the prevailing gap between developed and developing countries. Thus, this Special Issue contributes to closing the research gap in the literature by providing a platform for a scientific debate on innovation, internationalization and entrepreneurship which would facilitate improving the resilience of businesses to future disruptions.
