Relaciones tempestuosas Cristián Garay Vera, 2000 Resisting Terror Javier Argomaniz, 2025 Civil resistance campaigns have led to some of the most important international developments in recent years yet little is known of the role that civilian actors can play in challenging the use of violence by militant groups This book examines the role that social mobilization in the Spanish region of Basque Country played in the decline and end of the Basque armed separatist group Euzkadi Ta Askatasuna ETA For more than four decades ETA waged a bloody campaign against the military and the Spanish and Basque police forces while causing a large number of civilian deaths The Basque case demonstrates that civil resistance can work against terrorism and this book will show that social mobilization is one of the factors that contributed to the failure of ETA's violent campaign It reflects on how activism by the peace movement helped to delegitimise the armed struggle in society explores the role civil society actors played in the construction of ideas that challenged ETA's political project and highlights how civil resistance to the armed group undermined the prestige of militants and helped to limit the social reach of violent extremist narratives Resisting Terror raises awareness of the importance of collective action not only against regimes but also non state militants and highlights the significance of civil activism as a tool to mitigate political violence **El**

Mariscal de Campo José de la Cruz en la encrucijada de la independencia de México como comandante general de la nueva Galicia . Juan Ramón de Andrés Martín, 2021 El desempeño del mariscal de campo José de la Cruz Fernández en los diez años que hemos examinado 1812 a 1821 fue realmente eficaz y correcto sobresaliente para los realistas aunque tuvo sus más y sus menos con los tres virreyes con los que le tocó lidiar Fueron unos largos años fijo en Guadalajara hasta que en 1822 tuvo que abandonar la Nueva España por la victoria del Ejército Trigarante independentista de Agustín de Iturbide en 1821 El sistema militar que siguió Cruz en el territorio de su mando fue el propio para hacer frente a la constante diseminación de las

gavillas insurgentes por el mismo Por esta razón lo mantuvo subdividido fundamentalmente en cinco divisiones la última de guarnición en Guadalajara Y después cada división a su vez mandaba destacamentos proporcionados a los distintos puntos de su rumbo para destruir con eficacia a las distintas partidas rebeldes Era muy lógico que así procediera Estaba claro que la línea más crítica del territorio al mando de Cruz fue aquella frontera que se daba entre la Nueva Galicia y las provincias de Guanajuato y Valladolid y por esta razón tanto Cruz como los virreyes y los distintos comandantes militares de las mismas hacían constantemente planes de cooperación y combinación entre las tropas de la primera y las de las segundas Y al mando de la provincia de Guanajuato destacó como no el famoso coronel Agustín de Iturbide después famoso emperador de México También destacó el comandante de la primera división el brigadier Pedro Celestino Negrete que después de la independencia estuvo también un tiempo en el gobierno de México El general Cruz tuvo una decidida preocupación por la opinión pública que hubiera en cualquier momento en la Nueva Galicia y por extensión en las provincias de Guanajuato y Valladolid Efectivamente para Cruz esta opinión consistió nada menos que en las convicciones interiores que tenía la población neogalega en relación a su fidelidad al rey a España y a la religión católica Y si se perdían estas convicciones por las patrañas ideológicas a las que eran tan aficionados los insurgentes se perdía todo la Nueva Galicia primero y después por extensión toda la Nueva España Para conservar sana esta opinión pública no dejó Cruz siempre de utilizar con bastante frecuencia la imprenta emitiendo bandos manifiestos y los más importantes folletos contrarrevolucionarios de la época para que la población siguiera fiel al rey a España y no se dejara alucinar otro verbo muy utilizado por Cruz por las consignas sinuosas y sectarias de los insurgentes Cruz una vez vuelto a España en 1822 fue nombrado por Fernando VII en dos periodos Ministro de la Guerra en fin que este periodo de este general hasta su muerte en París en 1852 resultaría para hacer un tercer estudio sobre este interesante y poco conocido personaje de nuestra Historia Juan Ramón de Andrés Martín es Doctor en Historia por la UNED y Profesor Titular de la misma disciplina en la Universidad Rey Juan Carlos de Madrid Ha publicado doce libros entre los que sobresalen El cisma mellista historia de una ambición política Madrid 2000 El Imperio Español contra Mina La reacción realista española ante la presencia de Javier Mina en los Estados Unidos y las provincias internas de oriente 1809 1817 Monterrey 2008 El Virreinato de la Nueva España frente a la Constitución de Cádiz durante el periodo de la independencia de México La llave histórica de Lucas Alamán Madrid 2018 y La guerra del general Cruz contra la independencia de México El brigadier realista José de la Cruz como comandante general de los Ejércitos de la Derecha y Operaciones de Reserva de la Nueva España 1810 1811 Madrid 2020 Tiene también dos sexenios de investigación concedidos por la CNEAI ANECA 2019 **Tourism** Philip Goulding, 2023-05-31 Examines how temporality manifests in and impacts tourism in different parts of the world looking at climate culture and structural conditions of the tourism operation It looks at the reasons and causes for temporality within tourism and how this affects both the industry the consumer and the environment *Las fuentes de la historia del arte en la época contemporánea* Laura Arias Serrano, 2012-10-17 Aunque no cabe duda de que la obra de arte es la fuente originaria y

primordial de todo el proceso creador este no podrá entenderse ni contextualizarse sin la consulta de otras fuentes contemporáneas al artista que a modo de eslabones de una cadena dan sentido a la obra ayudan a desentrañar las circunstancias que rodearon su creación y actúan como espejo crítico donde se hace balance de todo el proceso. Las fuentes se convierten así en herramientas o instrumentos de trabajo a veces difícilmente clasificables sobre todo en la época contemporánea que aportan al investigador información orientada a descubrir resolver o dar forma y sentido al tema que le ocupa. Las fuentes de la historia del arte en la época contemporánea además de paliar el vacío bibliográfico que actualmente existe en este campo surge con el propósito de servir de apoyo a la investigación y a la docencia. A la investigación porque las fuentes son los instrumentos de los que se sirven el estudioso para dar forma a la historia y en este caso a la historia del arte. No importa el tema pues este repertorio de 540 fuentes ordenadas por tipologías y cronología lo que le brinda son pistas para empezar sus búsquedas y en definitiva una metodología de trabajo y una estructura básica sobre la que ir montando todo el aparato documental de la investigación. Apoyo a la docencia porque este libro se convierte por un lado en insustituible material de consulta y estudio para el alumno y por otro en un útilísimo repertorio documental para el profesor a la hora de preparar sus clases hacer un comentario de texto en el aula o asesorar al estudiante en sus trabajos. Un libro que además consigue ir más allá pues no sólo aporta referencias a textos teóricos técnicos o legales sino que ofrece amenos comentarios relativos a novelas poemas libros de viajes biografías repertorios iconográficos entrevistas películas que contextualizan y documentan al artista y a su obra.

Delitos y orden público en el estado constitucional Manuela Fernández Rodríguez, 2023-12-29

La vuelta de tuerca moderada: el proyecto de constitución y leyes fundamentales de don Juan Bravo Murillo (año 1852). Faustino Martínez Martínez, 2019-09-11 A finales de 1852 Un día 1 de diciembre El Gobierno de Juan Bravo Murillo decide llevar a la práctica una revisión de la Constitución de 1845 sobre la base de acentuar la vertiente conservadora del liberalismo moderado aquí que había logrado ensamblar un equilibrio político a partir de una división de poderes construida en provecho del Gobierno con un cierto rigor organizativo no natural en la estructura social aunando la nueva y emergente burguesía con los restos de la nobleza que habían mostrado su adhesión al nuevo mundo liberal. Esta línea ideológica se había sustentado en una tradición dominante la Religión Católica impulsada por el

Concordato del año 1851 debido al mismo Gabinete dirigido por el político extremeño que inundaba todos los campos del espíritu desde la educación hasta la opinión pública la Monarquía como forma de Estado y forma de Gobierno consustancial a España y sin la cual la Nación no podía ser comprendida ni históricamente ni en el presente y las Cortes como cauce de participación de una Nación disminuida de lites y capacidades de variadas aristocracias que aparecía como el contrapeso perfecto para evitar las derivas despoticas de los gobernantes no tanto los reyes sino más bien sus ministros como la experiencia histórica había demostrado con creces unas Cortes que se contemplaban más como órgano de asesoramiento y de consejo que de estricto control político hacia los monarcas y sus principales colaboradores El proyecto reformador buscaba reducir la Constitución a esos aspectos centrales apuntados los únicos que merecían ese carácter fundamental intocable como sustento de todo el orden político en su conjunto expulsando de la vida propiamente constitucional muchas materias como la referida a la Justicia la presupuestaria y tributaria o la referida a la vida municipal y provincial El resultado fue un Proyecto acompañado de ocho Leyes Orgánicas o Fundamentales donde se diseñaba el orden constitucional mismo e inmutable en el primero de ellos no sometido a debate ni a discusión y sus desarrollos normativos más inmediatos pero también más cambiantes más sujetos a modificaciones derivadas de la experiencia y del paso del tiempo para cuestiones varias como el Senado los mayorazgos las elecciones las relaciones entre las Cámaras y su funcionamiento interno así como la definición de los principales derechos y su protección además del desarrollo de un concepto clave para la cosmovisión moderada como era el orden público donde el Poder Ejecutivo hallaba refugio y se expandía Este libro expone de forma sucinta el contenido y las influencias de todos estos textos tanto mirando hacia su pasado más reciente como contemplando en la perspectiva del siglo XIX su suerte futura su destino Aunque no fueron aprobados finalmente todos estos textos respondían a una forma de concebir el mundo conservador que resurgió en otros momentos posteriores Porque en ese siglo XIX nada se desechaba sino que todo esperaba su oportunidad para aparecer o reaparecer con fuerzas inusitadas
