100 Years of Middle East Conflict - Honorable Peace Gottfried Hutter, 2019-02-23 Only mutual compassion can bring reconciliation and lasting peace to the Middle East This conflict is about far more than just land The honor of Muslims was grossly violated when Israel was implanted next to one of the holiest sites of Islam al Haram ash Sharif in Jerusalem which in turn occupies the site of the former Jewish Temple For thirteen hundred years Jews had been able to live mostly in peace in the Muslim world because they subordinated themselves under the rule of Islam They could even attain high positions serving Caliphs With a State of their own this was no longer an option Under such changed conditions how could there be an honorable peace Only if Muslims recollect Surat 5 48 in the holy Koran which commands a competition in virtue among the religions of the book Jews can contribute by showing awareness of how shocking their sudden takeover of part of the land must have felt for the community of all Muslims and concurrently by pleading for understanding of the deadly threat that left Jewish survivors no choice when in 1947 the UN declared the partition of Palestine Even more important the very name Israel itself sprang up in the solution of an archetypal biblical conflict between brothers one pregnant with meaning for today Christians too have their share They must contribute by helping restore one of the most fundamental values of all three religions descending from Abraham namely peace

Philosophy of Globalization Concha Roldán, Daniel Brauer, Johannes Rohbeck, 2018-06-11 Not so long ago it seemed the intellectual positions on globalization were clear with advocates and opponents making their respective cases in decidedly contrasting terms Recently however the fronts have shifted dramatically The aim of this publication is to contribute philosophical depth to the debates on globalization conducted within various academic fields principally by working out its normative dimensions The interdisciplinary nature of this book s contributors also serves to scientifically ground the ethical philosophical discourse on global responsibility Though by no means exhaustive the expansive scope of the works herein encompasses such other topics as the altering consciousness of space and time and the phenomenon of globalization as a discourse as an ideology and as a symbolic form

The Hidden "God" Peter Baekelmans,2022-05-27 Theology means discourse about god Christian theology is a reflection on the Christian faith in which God takes a central place Therefore the Christian theology of other religions seeks to understand if and how God as Christians call their experience of Him may be present in the thought devotion and ritual of those other religions Christian theology of Buddhism is then a Christian reflection on the Buddhist faith in god or gods Now Buddhist teaching contains many seeming contradictions as does Christian teaching Accepting these and looking for clues to understand how they came about and how they might be reconciled is not only an intellectual challenge but also a religious duty The Hidden God feels like a detective story taking the reader along on an exacting investigation of the manifold themes concepts and persons of the different Buddhist faith traditions in order to discern whether they can be related to the Christian understanding of who God is The result which is both complex and simple will enable readers to take steps toward uniting both religions in the mystery that God or the Dharma is
