Living out of Bounds Steven J. Overman, 2008-11-30 Despite some enormous differences in salary among professional athletes most aspects of their daily lives remain surprisingly constant across sports and income levels In *Living out of Bounds* author Steven J Overman mines a wide array of sports biographies autobiographies memoirs and diaries to construct a representative picture of the athlete's life In the course of the work a portrait emerges that transcends the individual lives lived The shared experiences of devoted training of travel and hotels and of tension within and beyond the clubhouse or gym force us to appreciate the often oppressive reality of the sporting life at the same time that the individual lives lived also provide us with a glimpse of the rewards that make sports so compelling to audiences and athletes across America

Outstanding College Athletes of America, 1975 *Athletes' Human Rights and the Fight Against Doping: A Study of the European Legal Framework* Bart van der Sloot, Mara Paun, Ronald Leenes, 2020-01-23 This book addresses the tension between on the one hand anti doping practices and measures and on the other hand the fundamental rights of athletes New techniques for testing and re testing samples taken several years ago have caused a push by the World Anti Doping Agency and affiliated organizations for stricter rules more doping tests and higher sanctions Meanwhile many States are adopting new laws and regulations to facilitate this push At the same time privacy and data protection have gained new momentum especially in the European Union where the General Data Protection Regulation came into effect in May 2018 It contains new obligations for data controllers and processors rights for data subjects and sanctions for those violating the data protection rules It is clear that gathering whereabouts information on athletes collecting urine and blood samples analyzing the samples and using the data distilled there from falls within the scope of the data protection framework In addition European athletes can invoke their rights to privacy fair trial and freedom from discrimination as guaranteed by the European Convention on Human Rights The book is aimed at professionals and organizations involved in sports and anti doping and provides them with an opportunity to delve into and understand the rights guaranteed to athletes within the European context Furthermore it is equally relevant for privacy and data protection lawyers and human rights scholars wishing to familiarize themselves with the difficult questions relating to human rights protection in the world of sport and anti doping Written in accessible language it should also prove useful to athletes and laymen wanting to learn about the rules applicable to almost everyone who practices sport even at a local amateur level Bart van der Sloot is senior researcher at Tilburg University Tilburg The Netherlands Mara Paun is PhD researcher at Tilburg University Tilburg The Netherlands Ronald Leenes is professor at Tilburg University Tilburg The Netherlands
