Unrealized Digital Democracy Garrett Pierman, 2023-09-25 Garrett Pierman argues that the Internet as it is structured today is inhospitable to democracy What began as a government funded defense project became with the commercialization of the Internet in the early 1990s a network that makes it simultaneously easier for falsehoods to spread and more difficult for people to lose touch with reality Many millions of Internet users have not encountered the online world as many scholars had hoped as a place for careful democratic deliberation The Internet is now a platform in which their fears and anxieties are exploited by corporations that have carved up digital fiefdoms In these digital fiefdoms fake news and lies are shared and consumed at speeds that far exceed our ability to sort fact from fiction leading to instances of political violence once people's lie based fears overcome their better judgement It should be of no surprise that the current Internet enables and encourages political violence scared and overwhelmed users are the ideal denizens of digital fiefdoms *Worth's Greatest Stock Picks of All Time* W. Randall Jones, 2002-12-17 Learn How to Pick the Right Stock at the Right Time The momentum of the bull market spoiled us all buying stock any stock was an almost surefire way to make a mint Now in a time of turbulent markets stock picking has become a mixture of science and high art With thousands of stocks to choose from how can investors determine which ones will be future winners We all know there's a time to buy and a time to sell every stock but when is the right time Timing stock buys so that you catch upward momentum is not luck and Randy Jones shows you how to hone your buying and selling skills by striving to analyze the factors that made winners of the great stocks in the past Why was AT&T a great stock pick in the 1920s Polaroid a winner in the 40s Xerox in the 50s Teledyne in the 70s and Intel in the 90s The potential of these

stocks was in plain sight for those who knew how to read the signs And perhaps as important is understanding the signs of decline and knowing when to sell Randy Jones analyzes twenty five of the greatest stocks of all time providing a framework for evaluating their strengths that can be used for future selections including Linking great management and bottom line profits Who were the faces behind AIG GE and IBM that led to profitability and what was it about these people s management skills that made their companies so great Pathbreaking products Polaroid Xerox and Amgen show that products that often seem to be overnight sensations were instead developed over many years giving investors plenty of lead time to discover their potential as great investments The innovative business model Avon McDonald s and Dell reveal that understanding how a company makes money helps you to understand its strengths and vulnerabilities Investing during bad times For some companies such as Coca Cola Schlumberger and Chrysler nationwide economic downturns can actually be advantageous Worth s Greatest Stock Picks of All Time has invaluable lessons for anyone in the market today *Computerworld*,1999-08-02 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network Been There - Done That...
