- For business, this means that some companies will become extinct, while others will adapt and survive.

 - The organization's ability to external industry factors and
 - Its skillfulness in managing the internal organization of the firm.
- Without the creation of a well-thought-out set of strategies, companies will never survive.
- **Definition of Strategy**
 - Definition of Strategy : Peter W. Stonebraker and G. Keong Leong in *Operation Strategy*(1994)
"The current domain and pattern of resource commitments to transformation processes and planned improvements as a means to achieve the distinctive competence and goals of the firm."
 - Important components of an organization's strategy:
 - Development of time horizons.
 - Identification and evaluation of key events.
 - Development of a plan to create, hasten, or compound a distinctive competence.
 - Creation of a competitive advantage.
 - Flexibility of decision patterns.
 - Transformation of inputs into value-added outputs.
 - Commitment of necessary resources.
