American Apostles Christine Leigh Heyrman, 2015-09 In *American Apostles* Christine Leigh Heyrman chronicles the first fateful collision between American missionaries and the diverse religious cultures of the Levant Pliny Fisk Levi Parsons and Jonas King became the founding members of the Palestine mission and ventured to Ottoman Turkey Egypt and Syria where they sought to expose the falsity of Muhammad's creed and to restore these bastions of Islam to true Christianity Not only among the first Americans to travel throughout the Middle East the Palestine missionaries also played a crucial role in shaping their compatriots understanding of the Muslim world *American Apostles* brings to life evangelicals first encounters with the Middle East and uncovers their complicated legacy The Palestine mission held the promise of acquainting Americans with a fuller and more accurate understanding of Islam but ultimately it bolstered a more militant Christianity one that became the unofficial creed of the United States over the course of the nineteenth century The political and religious consequences of that outcome endure to this day

**American Apostles** Christine Leigh Heyrman, 2015-10-16 The surprising tale of the first American Protestant missionaries to proselytize in the Muslim world In *American Apostles* the Bancroft Prize winning historian Christine Leigh Heyrman brilliantly chronicles the first fateful collision between American missionaries and the diverse religious cultures of the Levant Pliny Fisk Levi Parsons Jonas King though virtually unknown today these three young New Englanders commanded attention across the United States two hundred years ago Poor boys steeped in the biblical prophecies of evangelical Protestantism they became the founding members of the Palestine mission and ventured to Ottoman Turkey Egypt and Syria where they sought to expose the falsity of Muhammad's creed and to restore these bastions of Islam to true Christianity Not only among the first Americans to travel throughout the Middle East the Palestine missionaries also played a crucial role in shaping their compatriots understanding of the Muslim world As Heyrman shows the missionaries thrilled their American readers with tales of crossing the Sinai on camel sailing a canal boat up the Nile and exploring the ancient city of Jerusalem But their private journals and letters often tell a story far removed from the tales they spun for home consumption revealing that their missions did not go according to plan Instead of converting the Middle East the members of the Palestine mission themselves experienced unforeseen spiritual challenges as they debated with Muslims Jews and Eastern Christians and pursued an elusive Bostonian convert to Islam As events confounded their expectations some of the missionaries developed a cosmopolitan curiosity about even an appreciation of Islam But others devised images of Muslims for their American audiences that would both fuel the first wave of Islamophobia in the United States and forge the future character of evangelical Protestantism itself *American Apostles* brings to life evangelicals first encounters with the Middle East and uncovers their complicated legacy The Palestine mission held the promise of acquainting Americans with a fuller and more accurate understanding of Islam but ultimately it bolstered a more militant Christianity one that became the unofficial creed of the United States over the course of the nineteenth century The

political and religious consequences of that outcome endure to this day      *The Evangelical Counter-Enlightenment* William R. Everdell, 2021-05-21 This contribution to the global history of ideas uses biographical profiles of 18th century contemporaries to find what Salafist and Sufi Islam Evangelical Protestant and Jansenist Catholic Christianity and Hasidic Judaism have in common Such figures include Muhammad Ibn Abd al Wahab Count Nikolaus Zinzendorf Jonathan Edwards John Wesley Jean Jacques Rousseau and Israel Baal Shem Tov The book is a unique and comprehensive study of the conflicted relationship between the evangelical movements in all three Abrahamic religions and the ideas of the Enlightenment and Counter Enlightenment Centered on the 18th century the book reaches back to the third century for precedents and context and forward to the 21st for the legacy of these movements This text appeals to students and researchers in many fields including Philosophy and Religion their histories and World History while also appealing to the interested lay reader      **The Emergence of the Evangelical Egyptians** Ramy Nair Marcos, 2024-01-26 The Emergence of the Evangelical Egyptians traces the complex cultural encounter between American Presbyterian missionaries and the Egyptian Coptic Orthodox leaders over indigenous Protestant conversion in late Ottoman Egypt 1854-1878 This examination uses various Arabic English and French sources to uncover the complexities behind the narratives from that time thereby enriching the previous approach to the history and later studies regarding Protestant conversion and the clash of American and Arab civilizations over religious freedom This fresh perspective will expand the story to include indigenous voices and cultural understandings      **An American Biblical Orientalism** David D. Grafton, 2019-10-16 An American Biblical Orientalism The Construction of Jews Christians and Muslims in Nineteenth Century American Evangelical Piety examines the life and work of Eli Smith William McClure Thomson and Edward Robinson and their descriptions of the Bible Lands While there has been a great deal written about American travelogues to the Holy Lands this book focuses on how these three prominent American Protestants described the indigenous peoples and how those images were consumed by American Christians who had little direct experience with the Bible Lands David D Grafton argues that their publications Biblical Researches Later Biblical Researches and The Land and the Book profoundly impacted the way that American Protestants read and interpreted the Bible in the late nineteenth century The descriptions and images of the people found their way into American Bible dictionaries theological dictionaries and academic and religious circles of a growing bible readership in North America Ultimately the people of late Ottoman society e g Jews Christians and Muslims were essentialized as the living characters of the Bible These peoples were fitted into categories as heroes or villains from biblical stories and rarely seen as modern people in their own right Thus in the words of Edward Said they were orientalized      **God's Internationalists** David P. King, 2019-04-11 Over the past seventy years World Vision has grown from a small missionary agency to the largest Christian humanitarian organization in the world with 40 000 employees offices in nearly one hundred countries and an annual budget of over 2 billion While founder Bob Pierce was an evangelist with street smarts the most recent World Vision

U S presidents move with ease between megachurches the boardrooms of Fortune 500 companies and the corridors of Capitol Hill Though the organization has remained decidedly Christian it has earned the reputation as an elite international nongovernmental organization managed efficiently by professional experts fluent in the language of both marketing and development God s Internationalists is the first comprehensive study of World Vision or any such religious humanitarian agency In chronicling the organization s transformation from 1950 to the present David P King approaches World Vision as a lens through which to explore shifts within post World War II American evangelicalism as well as the complexities of faith based humanitarianism Chronicling the evolution of World Vision s practices theology rhetoric and organizational structure King demonstrates how the organization rearticulated and retained its Christian identity even as it expanded beyond a narrow American evangelical subculture King s pairing of American evangelicals interactions abroad with their own evolving identity at home reframes the traditional narrative of modern American evangelicalism while also providing the historical context for the current explosion of evangelical interest in global social engagement By examining these patterns of change God s Internationalists offers a distinctive angle on the history of religious humanitarianism The Oxford Handbook of Christian Fundamentalism Andrew Atherstone, David Ceri Jones, 2024-01-18 This authoritative volume offers the fullest account to date of Christian fundamentalism its origins in the nineteenth century and its development up to the present day It looks at the movement in global terms and through a number of key subjects and debates in which it is actively engaged

Re-Inventing Islam Deanna Ferree Womack, 2025 From the end of the American Civil War to the start of World War II the Protestant missionary movement unintentionally tilled the soil in which American Islamophobia would eventually take root What ideas did missionaries in Islamic contexts pass on to later generations How were these ideas connected to centuries old Protestant discourses about Muslims and gender beginning in the Reformation And what bearing does this history have on the birth of Islamophobia and on Christian Muslim dialogue efforts in the US today In answering these questions Re inventing Islam traces the gender constructs that have informed historical Protestant perceptions of Islam especially in the far reaching textual visual and material influences of the American and British movement for missions to Muslims This book first considers Protestant discourse about Muslim women and men from the Reformation to the Enlightenment Then it turns to the colossal archive of literature images and cultural objects that missionaries and particularly missionary women collected from Islamic contexts and used to inform and motivate their constituents Anglo Protestants in the nineteenth and early twentieth centuries perpetually re invented stereotypes about Muslims and used these negative images to achieve particular Protestant theological and political purposes including missionary aims They did so when disseminating gender critiques widely to Protestant men women and children Why did they re invent Islam Deanna Ferree Womack argues that they did so to reinforce Protestant theological claims to justify their evangelistic endeavors to express both humanitarian concern and Eurocentric views of the world and to support British and American cultural economic and military expansion

Simultaneously however this same missionary movement educated its constituents about diverse Islamic cultures in part by providing humanizing images of Islam Missionaries also formed personal relationships with Muslims that would open pathways toward formal efforts of Christian Muslim dialogue after the mid twentieth century Americans have inherited all of these legacies In revisiting this history readers will find new possibilities for building a more open and just future *Jesus Springs* William J. Schultz, 2025-10-07 In the years after World War II American evangelicals flocked to the once sleepy mountain town of Colorado Springs Drawn by cheap property beautiful scenery and the encouragement of civic leaders who saw religion as a path to prosperity evangelicals planted new churches and built religious nonprofits with a global reach They preached their message in churches and schools even in the United States Air Force Academy Their efforts transformed the city into what some called the Evangelical Vatican and others dubbed Jesus Springs But in the early 1990s as the evangelical movement shifted its focus from saving souls to securing political and economic power relations between the movement and the local community fractured Today the city faces the prospect of reinvention grappling with the challenges of America's fast changing religious landscape Jesus Springs reveals the power and influence of American evangelicalism within the nation's spiritual economy Linking the Cold War and the culture wars William J Schultz tracks how a deluge of defense spending helped Colorado Springs become the organizational heart of American evangelicalism This story taking place as evangelicalism transformed from a primarily religious movement into the social and political force we know today illuminates the movement's potential impact as its participants seek ever greater power *The Routledge Research Companion to the History of Evangelicalism* Andrew Atherstone, David Ceri Jones, 2018-07-11 Evangelicalism an inter denominational religious movement that has grown to become one of the most pervasive expressions of world Christianity in the early twenty first century had its origins in the religious revivals led by George Whitefield John Wesley and Jonathan Edwards in the middle decades of the eighteenth century With its stress on the Bible the cross of Christ conversion and the urgency of mission it quickly spread throughout the Atlantic world and then became a global phenomenon Over the past three decades evangelicalism has become the focus of considerable historical research This research companion brings together a team of leading scholars writing broad ranging chapters on key themes in the history of evangelicalism It provides an authoritative and state of the art review of current scholarship and maps the territory for future research Primary attention is paid to English speaking evangelicalism but the volume is transnational in its scope Arranged thematically chapters assess evangelicalism and the Bible the atonement spirituality revivals and revivalism worldwide mission in the Atlantic North and the Global South eschatology race gender culture and the arts money and business interactions with Roman Catholicism Eastern Christianity and Islam and globalization It demonstrates evangelicalism's multiple and contested identities in different ages and contexts The historical and thematic approach of this research companion makes it an invaluable resource for scholars and students alike worldwide
