this new volume *Strong Brands Strong Relationships* is a collection of innovative research and management insights that build upon the foundations of the first book but takes the study of brand relationships outside of traditional realms by applying new theoretical frameworks and considering new contexts. The result is an expanded and better informed account of people's relationships with brands and a demonstration of the important and timely implications of this evolving sub discipline. A range of different brand relationship environments are explored in the collection including online digital spaces, consumer collectives, global brands, luxury brands, branding in terrorist organizations and the brand relationships of men and transient consumers. This book attends to relationship endings as well as their beginnings, providing a full life cycle perspective. While the first volume focused on positive relationship benefits, this collection explores dysfunctional dynamics, adversarial and politically charged relationships and those that are harmful to well being. Evocative constructs are leveraged including secrets, betrayals, anthropomorphism, lying, infidelity, retaliation and bereavement. The curated collection provides both a deeper theoretical understanding of brand relationship phenomena and ideas for practical application from experiments and execution in commercial practice. *Strong Brands Strong Relationships* will be the perfect read for marketing faculty and graduate students interested in branding dynamics as well as managers responsible for stewarding brands.
