Gray,2000-11-09 Susan Gray explores community formation among New England migrants to the Upper Midwest in the generation before the Civil War Focusing on Kalamazoo County in southwestern Michigan she examines how Yankees moving west reconstructed familiar communal institutions on the frontier while confronting forces of profound socioeconomic change particularly the rise of the market economy and the commercialization of agriculture Gray argues that Yankee culture was a type of ethnic identity that was transplanted to the Midwest and reshaped there into a new regional identity In chapters on

settlement patterns economic exchange the family religion and politics Gray traces the culture that the migrants established through their institutions as a defense against the uncertainty of the frontier She demonstrates that although settlers sought rapid economic development they remained wary of the threat that the resulting spirit of competition posed to their communal ideals As isolated settlements developed into flourishing communities linked to eastern markets however Yankee culture was transformed What was once a communal culture became a class culture appropriated by a newly formed rural bourgeoisie to explain their success as the triumphant emergence of the Midwest and to identify their region as true America
