Every three minutes a woman in the United States is diagnosed with breast cancer. Although more and more men and women are surviving breast cancer, it is still a very frightening diagnosis, and your life is absolutely turned upside down when you are told you have breast cancer. This is a book of hope and inspiration. I wrote it for both men and women, and I believe that thousands of women and men will be helped by all the information in this book. As you will see throughout the book, each inspirational chapter, which is a documentation of my specific journey with breast cancer, is followed by a factual account that contains up-to-date information regarding breast cancer and treatment in both men and women. In addition to its inspirational chapters, I hope that the factual information in his book will help both men and women make informed decisions regarding their treatment options.
