Armament Engineering A Computer Aided Approach:

Armament Engineering H. Peter, 2003 Probably a first in the field since Elements of Ordnance by Haynes published in the 1900 s this is a book with a practical and up to date approach to a complex subject Intended for the mechanical engineer concerned with large calibre gun engineering it puts mechanical engineering and weapon uniqueness into clear perspective and prepares the groundwork for the intricacies of gun design A wealth of engineering information is covered in seven chapters including gun barrels breech assemblies recoil systems muzzle brakes supporting structures elevating and traversing mechanisms and balancing The analyses contained in each chapter are illustrated by worked examples supported by straightforward computer applications In all a valuable book for both teacher and student in a field where published works are almost impossible to come by This volume found acceptance as a text book and reference material at colleges in the US Canada UK Spain Germany Finland and Czechslovakia *Mechanical Engineering* H. Peter, 2006-12 Another rare book in an unpublished field A sequel to Armament Engineering A Computer Aided Approach it covers the design principles of large caliber gun systems with brilliant simplicity *Air Force Journal of Logistics* ,1993 **Enabling Technologies for Unified Life-Cycle Engineering of Structural Components** National Research Council, Division on Engineering and Physical Sciences, National Materials Advisory Board, Commission on Engineering and Technical Systems, Committee on Enabling Technologies for Unified Life-Cycle Engineering of Structural Components, 1991-02-01 Unified life cycle engineering ULCE or concurrent engineering is a design engineering environment in which computer aided design technology is used to assess and improve the quality of a product not only during the active design phases but throughout its entire life cycle This is achieved by integrating and optimizing the design attributes for producibility and supportability as well as for performance operability cost and schedule This book addresses ULCE approaches to design manufacture and application of structural components especially for advanced military systems Conclusions and recommendations to support the development of an effective ULCE design engineering environment are presented **Scientific and Technical Aerospace Reports** ,1993 **Naval Weapons Center/China Lake, California** ,1984 **Army** ,1985 **Program Manager** ,1981 Trends in Science and Technology Relevant to the Biological and Toxin Weapons Convention National Research Council, International Union of Microbiological Societies, International Union of Biochemistry and Molecular Biology, IAPâ€”The Global Network of Science Academies, Chinese Academy of Sciences, 2011-05-07 This report offers a summary of the substantive presentations during an international workshop Trends in Science and Technology Relevant to the Biological and Toxin Weapons Convention held October 31 November 3 2010 at the Institute of Biophysics of the Chinese Academy of Sciences It is meant to provide scientists and other technical experts with factual information about the range and variety of topics discussed at the workshop which may be of interest to national governments and non governmental organizations as they begin to prepare for the 7th Review Conference of the Biological and Toxin Weapons Convention BWC

in 2011 The Beijing workshop reflected the continuing engagement by national academies international scientific organizations and individual scientists and engineers in considering the biosecurity implications of developments in the life sciences and assessing trends in science and technology S T relevant to nonproliferation The workshop provided an opportunity for the scientific community to discuss the implications of relevant developments in S T for multiple aspects of the BWC Trends in Science and Technology Relevant to the Biological and Toxin Weapons Convention follows the structure of the plenary sessions at the workshop It begins with introductory material about the BWC and current examples of the types and modes of science advice available to the BWC and other international nonproliferation and disarmament agreements in particular the Chemical Weapons Convention CWC This report includes only a very brief description of the some of the post presentation discussions held during the plenary sessions and does not include an account of the small breakout groups since these were intended to inform the committee s finding and conclusions and will be reflected in the final report
