especially difficult because their problems fall outside traditional medical categories Coping strategies might include martial arts or horseback riding or speech and occupational therapies Klass and Costello cover all the options as well as offer a thorough consideration of the available medications how they work and whether medication is the best choice for your child Drs Klass and Costello firmly believe that the ideal way to help our quirky kids is to understand and embrace the qualities that make them exceptionally interesting and lovable Written with upbeat clarity and informed insight their book is a comprehensive guide to loving living with and enjoying these wonderful if challenging children From the Hardcover edition
