The Root Chakra represents our foundation and sense of stability. It governs our connection to the Earth, our survival instincts, and our ability to feel safe in the world. When balanced, it fosters a deep sense of belonging, resilience, and stability in our physical and emotional lives. This chakra also influences our relationship with material and financial security.

Development & Emotional Connections

This chakra develops in infancy and early childhood, particularly from birth to six months. It is shaped by early

The Book of Consciousness Dr. Bara H. Loveland, 2011-01-19 The Book of Consciousness by Dr Bara H Loveland Have you ever wondered what Consciousness is or the mind the unconscious or Archetypes and Symbols how they work and how to define these Without arriving at the reach of Consciousness there are numerous books on consciousness there are conferences held and groups searching for consciousness with dictionaries attempting to define it Why have they not found the ultimate definition of Consciousness to this day of the publication of The Book of Consciousness in January 2011 Could Bara s new book The Book of Consciousness hold the answer Can it deliver the ultimate in Consciousness There are many other questions which science has not positively answered yet Why is it that our brain cerebrum seat of the mind

has to be calmed from 40 Hertz to 8 Hertz or less literally put to sleep in order to reach highest states of awareness although the cerebrum is supposed to be the seat of the world's highest intelligence Why is this seat of highest intelligence polluting the earth to the brink of dying of life Why is the unconscious called unconscious when it is able to construct meaningful dreams and is there a difference between an Archetype and a Symbol appearing in dreams and myths Could a neurosis not be a disease And what is it the mind really knows Profound contemplation of Consciousness must lead to further questions about the origins of Archetypes and Symbols about wisdom and similarities of ancient Stone Age Symbols East Indian and Egyptian scriptures Runes Mayan glyphs and biblical Symbols or world religions in general One may wonder why an Egyptian god is frequently named in Christian churches and is mentioned in both the Old and the New Testaments Is God He and could He exist Could there be a different world behind our visible one and could we have Bio Modulators to sense the other world What can we learn from a Germanic king Is it possible that we have more than five senses and how many diseases could naturally exist Can the DNA communicate and how many laws exist in the universe What is the meaning of certain Bible verses and what could have been the message Jesus gave the world on the cross Is New Age wisdom contained in the Bible and could it be that common science limits itself when excluding miracles it could perform with ease protecting the animals from harm Are there more levels of logic than one How could we realize or activate them What is the role our belief plays in our life and in science The Book of Consciousness begins where common science ends Be surprised by the innovative answers with some published about 30 years ago by this author Be captivated by the author's authentic new style by the insights humor and vivid experiences enjoy the 40 figures and tables as well as exercises to reach altered states of awareness naturally and at will May The Book of Consciousness raise into Oneness the conscious of all those who read its 640 pages may they be the igniters inspiring divine Oneness and Love in the perception of all Genre Specialty Books
