The Yoga Store Murder Dan Morse, 2013-11-05 The full true story of the lululemon murder and what really happened to Jayna Murray and Brittany Norwood photos included It was a crime that shocked the country On March 12 2011 two young saleswomen were found brutally attacked inside a lululemon athletica retail store in Bethesda Maryland one of the nation's wealthiest suburbs Thirty year old Jayna Murray was dead slashed stabbed and struck more than three hundred times Investigators found blood

spattered on walls and size fourteen men's shoe prints leading away from her body. Twenty-eight year old Brittany Norwood was found alive tied up on the bathroom floor. She had lacerations, a bloody face and ripped clothing. She told investigators that two masked men had slipped into the Bethesda Lululemon store just after closing, presumably planning to rob it. She spoke of the night of terror she and her coworker had experienced. Investigators were sympathetic but as the case went on, Brittany's story began to unravel. Why rob a business that dealt mostly in credit cards? Why was Jayna murdered but Brittany left alive? Could the petite, polite Brittany have been involved? Most chilling of all, could she have been the killer?

BIG TECH BIAS Darren Lincoln, Jennifer Lincoln, 2023-02-03. The World's Largest Search Engine Tactics Revealed. A must read if you want to know how the number 1 search engine treats you. This is an intriguing story of how one of the United States' foregone publishing companies was denied honest access for indexing to one of the largest search engines in the world. His company was blacklisted because of his conservative view based upon their political bias. This eventually turns into a lawsuit for which sets the precedent for future complaints against an internet goliath machine that leverages their power to squash any website that does not have the same political views. The results turn into a cliff hanger in US Federal Court for which Mr. Lincoln hires the most powerful US attorneys and makes a complaint regarding racketeering and how one-sided the largest search engine results really are. It is a week-by-week diary of the events that take place over a one-year period of dismay when going up against the best attorneys they have to offer. The twist and turns are a bone-chilling case-by-case true story to see who comes out on top. This book might change the way you think about Big Brother and how they can manipulate elections and can totally control winners and losers on the net.

Jony Ive Leander Kahney, 2014-10-28. An adulating biography of Apple's left-brained wunderkind whose work continues to revolutionize modern technology. Kirkus Reviews. In 1997, Steve Jobs discovered a scruffy British designer toiling away at Apple's headquarters surrounded by hundreds of sketches and prototypes. Jony Ive's collaboration with Jobs would produce some of the world's most iconic technology products including the iMac, iPod, iPad, and iPhone. Ive's work helped reverse Apple's long decline, overturned entire industries, and created a huge global fan base. Yet little is known about the shy, soft-spoken whiz whom Jobs referred to as his spiritual partner. Leander Kahney offers a detailed portrait of the English art school student with dyslexia who became the most acclaimed tech designer of his generation. Drawing on interviews with Ive's former colleagues and Apple insiders, Kahney takes us inside the creation of these memorable objects. The Wall Street Journal.
