Rights and Responsibilities in Rural South Africa Kathleen Rice, 2023-06-20 Rights and Responsibilities in Rural South Africa examines the gendered and generational conflicts surrounding social change in South Africa's rural Eastern Cape, roughly twenty years after the end of Apartheid. In post-Apartheid South Africa, rights-based public discourse and state practices promote liberal, autonomous, and egalitarian notions of personhood, yet widespread unemployment and poverty demand that people rely closely on one another and forge relationships that disrupt the gendered and generational hierarchies framed as traditional and culturally authentic. Kathleen Rice examines the ways these tensions and restructurings lead to uncertainties about how South Africans should live together in their daily lives, with particular implications for understanding and responding to widespread gendered and sexual conflict and violence. Focusing particularly on the women of the village of Mhlambini, Rights and Responsibilities in Rural South Africa offers compelling portraits of how they experience and navigate widespread social and economic change and presents their experiences as a way of understanding how people navigate the moral ambiguities of contemporary South African life.

transnational indigenous and rural contexts **Sustainable Futures in Southern Africa's Mountains** Andrea Membretti, Sue Jean Taylor, Jess L. Delves, 2023-01-30 This open access book presents multiple disciplinary perspectives on the challenges and opportunities for sustainable development in the South African mountain city of Phuthaditjhaba. These challenges are embedded in the complex environmental, socio-cultural and political contexts of the region. Established as the capital of the QwaQwa homeland under Grand Apartheid, this city is now home to between 400 000-700 000 people but in many areas lacks formal infrastructure and services. Each chapter of this volume addresses a different aspect of the city's development and all take the UN Sustainable Development Goals as a common framework to guide their reflections on potential sustainable futures for Phuthaditjhaba. While the circumstances in Phuthaditjhaba will be familiar to many researchers of informal and growing cities in developing regions, the mountain setting of the city brings its own set of challenges and opportunities linked to the rugged and steep terrain, remoteness and natural resources. This book serves to showcase the diverse research taking place in this emerging mountain city and provide reflections on how a sustainable future can be ensured for its environment and inhabitants Protecting the Wild George Wuerthner, Eileen Crist, Tom Butler, 2015-02-19 Protected natural areas have historically been the primary tool of conservationists to conserve land and wildlife. These parks and reserves are set apart to forever remain in contrast to those places where human activities, technologies and developments prevail. But even as the biodiversity crisis accelerates, a growing number of voices are suggesting that protected areas are passé. Conservation, they argue, should instead focus on lands managed for human use, working landscapes and abandon the goal of preventing human-caused extinctions in favor of maintaining ecosystem services to support people. If such arguments take hold, we risk losing support for the unique qualities and values of wild, undeveloped nature. *Protecting the Wild* offers a spirited argument for the robust protection of the natural world. In it, experts from five continents reaffirm that parks, wilderness areas and other reserves are an indispensable, albeit insufficient, means to sustain species, subspecies, key habitats, ecological processes and evolutionary potential. Using case studies from around the globe, they present evidence that terrestrial and marine protected areas are crucial for biodiversity and human well-being alike, vital to countering anthropogenic extinctions and climate change. A companion volume to *Keeping the Wild Against the Domestication of Earth*, *Protecting the Wild* provides a necessary addition to the conversation about the future of conservation in the so-called Anthropocene, one that will be useful for academics, policymakers and conservation practitioners at all levels, from local land trusts to international NGOs Pedagogi Meningkatkan Kualiti Intelktual Pelajar Nor Asniza Ishak, Hazri Jamil, Nordin Abd Razak, 2021-01-01 Buku *Pedagogi Meningkatkan Kualiti Intelktual Pelajar* merupakan dapatan daripada kajian penyelidikan tentang strategi pengajaran guru.
