Macintyre,2009-06-29 Australia is the last continent to be settled by Europeans but it also sustains a people and a culture tens of thousands years old For much of the past 200 years the newcomers have sought to replace the old with the new This book tells how they imposed themselves on the land and brought technology institutions and ideas to make it their own It relates the advance from penal colony to a prosperous free nation and illustrates how as a nation created by waves of newcomers the search for binding traditions was long frustrated by the feeling of rootlessness until it came to terms with its origins The third edition of this acclaimed book recounts the key factors social economic and political that have shaped modern day Australia It covers the rise and fall of the Howard government the 2007 election and the apology to the stolen generation More than ever before Australians draw on the past to understand their future **Historical Dictionary of Russian and Soviet Intelligence** Robert W. Pringle,2015-07-29 This second edition of Historical Dictionary of Russian and Soviet Intelligence is the only volume that lays out how Russian and Soviet intelligence works and how its operations have impacted Russian history It covers Russian intelligence from the imperial period to the present focusing in greatest detail on Cold War espionage cases and the Putin era intelligence community This is done through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 600 cross referenced entries on espionage techniques categories of agents crucial operations spies defectors moles and double and triple agents This book is an excellent access point for students researchers and anyone wanting to know more about the Russian Intelligence

Somewhere in Asia Prue Torney-Parlicki,2000 From 1941 to 1975 as a series of military conflicts gripped Asia and the Pacific Australian journalism was dominated by war reporting from the region Torney Parlicki history U of Melbourne argues that the reporting went beyond the usual discussion of military strategy and in an important way **Menzies and the 'great World Struggle'** David Lowe,1999 Lowe history Deakin U finds prime minister Robert Menzies to be the towering figure of the age as he explores the Cold War from Australia s perspective He pivots on the three themes of the threat of a third world war and the imperatives of Australia s rapid economic development *One of Us?* David Dutton,2002 When Paul Keating announced his plans for an Australian Republic in 1995 he emphatically appealed for Australia s head of state to be one of us But what does it mean to be one of us Who can be an Australian citizen Who was entitled to citizenship in the past By what paths can newcomers become one of us And how have these paths changed since 1901 *One of Us A Century of Australian Citizenship* traces the meanings of citizenship and belonging that are evident in the Australian Government s civil

policies The book shows that since Federation Australian citizenship has had much less to do with questions of civil and political rights democracy and sovereignty than with a determination to create a cohesive and loyal citizenry The government's policies have addressed the problems it has faced in incorporating migrants and in controlling the movement of people in and out of the country At a time when questions of who can be one of us are as alive as ever and when citizenship race and multiculturalism are vital issues in contemporary politics this comprehensive examination of our past is vital to our understanding of the issue of citizenship today

Seeking Meaning, Seeking Justice in a Post-Cold War World Judith Keene, Elizabeth Rechniewski, 2018-03-27 The challenge for historians as for individuals and nations has been to make sense of the Cold War past without recourse to the obsolete frameworks of a dichotomous world The editors of Seeking Meaning Seeking Justice in the Post Cold War World Judith Keene and Elizabeth Rechniewski have brought together contributions that address the diverse modes by which the Cold War is being assessed with a major focus on countries on the periphery of the Cold War confrontation These approaches include developments in historiography as new intellectual and cultural frame are applied to old debates Authors also consider the universal principles and moral discourses including that of human rights on which judgements have been based and judicial processes instigated and the forms of memorialisation that have sought to come to terms and perhaps achieve reconciliation with a Cold War past Contributors are Ann Curthoys Philip Deery Katherine Hite Michael Humphrey Su kyong Hwang Perry Johansson Judith Keene Betty O'Neill Peter Read Elizabeth Rechniewski Estela Valverde Adrian Vickers and Marivic Wyndham
