

# Educate.

Aplia's online learning solution makes statistics relevant and engaging to students with interactive, automatically graded assignments. As students answer each question, they receive instant, detailed feedback—and their grades are automatically recorded in your Aplia gradebook.

## Problem Sets

Students stay engaged in their coursework by regularly completing interactive problem sets. Aplia offers original, auto-graded problems—each question providing instant, detailed feedback.

## Math & Graphing Tutorials

Interactive tutorials help students overcome mathematical challenges that would otherwise prevent them from learning statistics. Tutorials cover prerequisite math fundamentals, such as graphing, numerical calculations, and equations. By assigning these tutorials, you no longer need to spend valuable class time reviewing these subjects.

## Assessment & Grading

Aplia keeps you informed about student participation, progress, and performance through real-time graphical reports. You can easily download, save, manipulate, print, and import student grades into your current grading program.

## Course Management System

You can post announcements, upload course materials, e-mail students, and manage your gradebook in Aplia's easy-to-use course management system. Aplia works independently or in conjunction with other course management systems.

## **Aplia For Mind On Statistics:**

**Mind on Statistics** Jessica M. Utts, Robert F. Heckard, 2011-01-07 MIND ON STATISTICS emphasizes the conceptual development of statistical ideas and the importance of looking for and finding meaning in data Authors Jessica Utts and Robert Heckard actively engage students natural curiosity motivating them with intriguing questions and explaining statistical topics in the context of a wide range of interesting useful examples and case studies Throughout the authors balance the promotion of statistical literacy with coverage of the statistical methodology taught in general introductory statistics courses Their approach is based on the premises that new material is much easier to learn and remember if it is related to something interesting or previously known and if students actively ask questions and find the answers for themselves More than any other text available MIND ON STATISTICS motivates and encourages students to develop their statistical intuition by focusing on analyzing data and interpreting results rather than on mathematical formulation Important Notice Media content referenced within the product description or the product text may not be available in the ebook version

*Handbook of Research on Strategic Management of Interaction, Presence, and Participation in Online Courses* Kyei-Blankson, Lydia, 2015-11-05 Online learning has become a prominent and inseparable component of higher education in recent years Questions related to course structure levels of interaction presence and participation within online courses persist and invite further inquiry for determining factors that encourage effective teaching and learning in online environments The Handbook of Research on Strategic Management of Interaction Presence and Participation in Online Courses explores models of course development and delivery techniques to improve instruction learning and student satisfaction in online courses Covering topics such as rates of participation student engagement and retention and social development this handbook serves as a resource for educators in online learning environments as well as for course designers and developers of online courses and researchers whose agenda includes examining interaction presence and participation in online courses

**Teaching Economics** William E. Becker, Suzanne R. Becker, Michael W. Watts, 2006-01-25 Teaching Economics is an invaluable and practical tool for teachers of economics administrators responsible for undergraduate instruction and graduate students who are just beginning to teach Each

chapter includes specific teaching tips for classroom implementation and summary lists of do's and don'ts for instructors who are thinking of moving beyond the lecture method of traditional chalk and talk

**BOOK JACKET** Exploring More Signature Pedagogies Nancy L. Chick, Aeron Haynie, Regan A. R. Gurung, 2023-07-03 What is distinctive about the ways specific disciplines are traditionally taught and what kinds of learning do they promote? Do they inspire the habits of the discipline itself or do they inadvertently contradict or ignore those disciplines? By analyzing assumptions about often unexamined teaching practices, their history and relevance in contemporary learning contexts, this book offers teachers a fresh way to both think about their impact on students and explore more effective ways to engage students in authentic habits and practices. This companion volume to *Exploring Signature Pedagogies* covers disciplines not addressed in the earlier volume and further expands the scope of inquiry by interrogating the teaching methods in interdisciplinary fields and a number of professions, critically returning to Lee S. Shulman's origins of the concept of signature pedagogies. This volume also differs from the first by including authors from across the United States as well as Ireland and Australia. The first section examines the signature pedagogies in the humanities and fine arts fields of philosophy, foreign language instruction, communication, art and design, and arts entrepreneurship. The second section describes signature pedagogies in the social and natural sciences, political science, economics, and chemistry. Section three highlights the interdisciplinary fields of Ignatian pedagogy, women's studies, and disability studies, and the book concludes with four chapters on professional pedagogies: nursing, occupational therapy, social work, and teacher education, that illustrate how these pedagogies change as the social context changes as their knowledge base expands or as online delivery of instruction increases.

**Mind on Statistics** Jessica Utts, Robert Heckard, 2006-01-03 *MIND ON STATISTICS* emphasizes the conceptual development of statistical ideas and seeks to find meaning in data. Authors Jessica Utts and Robert Heckard satisfy students' natural curiosity by actively engaging them with inspiring questions and explaining statistical topics in the context of excellent examples and case studies. *MIND ON STATISTICS* balances the spirit of statistical literacy with the statistical methodology taught in general introductory statistics courses. The authors built the book on two learning premises: 1. New material is much easier to learn and remember if it is related to something interesting or previously known. 2. New material is easier to learn if students actively ask questions and find the answers for themselves. More than any other text available, *MIND ON STATISTICS* motivates students to develop their statistical intuition by focusing on analyzing data and interpreting results rather than on mathematical formulation. A wide range of interesting and real examples provides further motivation for students to learn about statistics.
