Apple Training Series Marc Asturias, Moira Gagen, 2007-05-07 This authoritative Apple Certified training course is designed both for professionals who support Apple computers as well as Macintosh enthusiasts who want to upgrade service or troubleshoot their favorite systems Fully revised this third edition includes Apple's new models with Intel processors the MacBook Pro Mac mini and iMac Keyed to the learning objectives of the Apple Desktop Service and Apple Portable Service certification exams this is the companion curriculum used in AppleCare Technician Training courses worldwide The book starts out with basic computer theory and underlying technologies then moves on to cover everything from networking to the nitty gritty steps and diagrams for upgrading and troubleshooting six sample computer models **HWM**, 2004-10 Singapore

s leading tech magazine gives its readers the power to decide with its informative articles and in depth reviews *Apple Inc.* Jason D. O'Grady, 2008-12-30 Two guys named Steve working in a garage created a prototype computer designed to be different in a way no one thought possible It would be easy to use Those two Steves one now a billionaire and still at the head of Apple not only succeeded with that product but they also broke ground in the business world in ways few thought possible They proved you could not only have fun at work but pursuing a capitalist dream could be hip How did Apple do it How did it go from making computers that made a difference but not much of a dent in the overall market to creating a device the iPod and a music service iTunes that has changed the way we buy and experience music And how did the Macintosh and its successors capture the hearts and minds of computer users so deeply that being a Mac person makes you a member of a special club That s what this book is all about As author Jason D O Grady shows Apple is a rare company one that is not afraid to think about a future that does not exist and turn it into reality Critics have written Apple off time and again yet it rises from the ashes to astound the critics and delight its customers That s not luck or happenstance it s vision dedication and persistence Besides delighting Apple aficionados this book will inspire students eager to launch a business career or work in the technology sector Apple has never been afraid to chart its own path and readers will learn what makes the company tick

Home Networking: The Missing Manual Scott Lowe, 2005-07-01 Millions of computers around the world today are connected by the Internet so why is it still so hard to hook up a few PCs in you own home Whether you want to share an Internet connection install WiFi or maybe just cut down on the number of printers you own home networks are supposed to help make your life easier Instead most aspiring home networkers get lost in a confusing maze of terms and technologies 802 11g Fast Ethernet Cat 5 cable or was it Cat 5e Powerline and on and confusingly on That s where Home Networking The Missing Manual comes in Using clear language straightforward explanations and a dash of humor this book shows you how to do everything you need to set up a home network Coverage includes WiFi Ethernet or Powerline There are several kinds of digital pipes that you can use to create your network and none of them have friendly names This book tells you what they are explains the pros and cons of each and helps you figure out what you need to buy and how to install it Windows and Mac info included Half the battle in home networking takes place after you ve bought your gear and plugged it in That s because the routers network adapters and cables that you need get you only part way towards networking nirvana Whether you ve got PCs or Macs or both you ll need help tweaking your computers settings if you want to get all your machines talking to each other This book covers most known operating system flavors including Windows XP 2000 Me and 98 and Mac OS X and OS 9 Fun things to do with your network The real fun starts once your network is up and running This book shows you how to do much more than simply share an Internet connection and a printer You ll learn how to stream music from your PCs to your stereo how to display pictures on your TV how to hook up game consoles to your network and more Most important this book helps you understand the difference between what you need to know to create and use your home network and what s best
