number of diagnosis categories listed by the American Psychiatric Association has tripled in the last fifty years. With so many people affected it is time to revisit our perceptions of people with disabilities. Thomas Armstrong illuminates a new understanding of neuropsychological disorders. He argues that if they are a part of the natural diversity of the human brain they cannot simply be defined as illnesses. Armstrong explores the evolutionary advantages, special skills and other positive dimensions of these conditions including autism, ADHD, dyslexia, schizophrenia, anxiety, intellectual disabilities and mood disorders. With an emphasis on positive niche construction for each area, *The Power of Neurodiversity* is a manifesto as well as a keen look at disability as well as a must read for parents, teachers and anyone who is looking to learn more about neurodivergence.
