The composition is dominated by a large, light blue semi-circular arch at the top, which frames the main title. Below this, a series of brown and blue rectangular blocks and openings create a sense of depth and perspective. A central opening reveals a smaller, similar structure in the background. O'Kane, 2019-08-06 This book explores the iconography of Islamic art presenting a diverse range of approaches to the subject *Constructing Islam on the Indus* Hasan Ali Khan, 2016-08-08 This book represents the first serious consideration of Ismaili Shia esotericism in material and architectural terms as well as of pre modern conceptions of religious plurality in rituals and astrology Sufism has long been reckoned to have connections to Shi ism but without any concrete proof The book shows this connection in light of current scholarly work on the subject historical sources and most importantly metaphysics

and archaeological evidence The monuments of the Suhrawardi Order which are derived from the basic lodges set up by Pir Shams in the region constitute a unique building archetype The book s greatest strength lies in its archaeological evidence and in showing the metaphysical commonalities between Shi ism Isma ilism and the Suhrawardi Sufi Order both of which complement each other In addition working on premise and supposition certain reanalysed historical periods and events in Indian Muslim history serve as added proof for the author s argument

Mid-Century Modernism in Turkey Meltem Gürel, 2018-02-05 Mid Century Modernism in Turkey studies the unfolding of modern architecture in Turkey during the 1950s and 1960s The book brings together scholars who have carried out extensive research on post WWII modernism in a global context The authors situate Turkish architectural case studies within an international framework during this period providing a close reading of how architectural culture responded to ubiquitous post war ideas and ideals and how it became intertwined with politics of modernization and urbanization This book contributes to contemporary scholarship to reconsider post war architecture beyond canonical explanations
