Truthful Fictions: Conversations with American Biographical Novelists Michael Lackey, 2014-02-27 In this new collection of interviews some of America s most prominent novelists identify the key intellectual developments that led to the rise of the contemporary biographical novel discuss the kind of historical truth this novel communicates indicate why this narrative form is superior to the traditional historical novel and reflect on the ideas and characters central to their individual works These interviews do more than just define an innovative genre of contemporary fiction They provide a precise way of understanding the complicated relationship and pregnant tensions between contextualized thinking and historical representation interdisciplinary studies and truth production and fictional reality and factual constructions By focusing on classical and contemporary debates regarding the nature of the historical novel this volume charts the forces that gave birth to a new incarnation of this genre

Without the Novel Scott Black, 2019-08-23 No genre manifests the pleasure of reading and its power to consume and enchant more than romance In suspending the category of the novel to rethink the way prose fiction works *Without the Novel* demonstrates what literary history looks like from the perspective of such readerly excesses and adventures Rejecting the assumption that novelistic realism is the most significant tendency in the history of prose fiction Black asks three intertwined questions What is fiction without the novel What is literary history without the novel What is reading without the novel In answer this study draws on the neglected genre of romance to reintegrate eighteenth century British fiction with its classical and Continental counterparts Black addresses works of prose fiction that self consciously experiment with the formal structures and readerly affordances of romance Heliodorus s *Ethiopian Story* Cervantes s *Don Quixote* Fielding s *Tom Jones* Sterne s *Tristram Shandy* and Burney s *The Wanderer* Each text presents itself

as a secondary satiric adaptation of anachronistic and alien narratives but in revising foreign stories each text also relays them The recursive reading that these works portray and demand makes each a self reflexive parable of romance itself Ultimately Without the Novel writes a wider weirder history of fiction organized by the recurrences of romance and informed by the pleasures of reading that define the genre The Night, and the Rain, and the River Scott Sparling, Joanna Rose, Sage Cohen, 2014-05-01 A current of longing runs through twenty two short stories by Oregon writers As the characters strive for connection they make mistakes reach out to the wrong people and recalibrate their lives based on what they desire whether or not it s attainable or even a good idea Editor Liz Prato has curated a powerful collection of smart funny sad and exquisite stories about the losses that shape our lives **Subversion and Conformity of Literary Collage** Magda Dragu, 2024-04-30 Subversion and Conformity of Literary Collage Between Cut and Glue fills a gap in the current scholarship on literary collage by addressing how different the interpretations of the concept are depending on the author who uses the concept and the material and writers surveyed The book studies writers who employed literary collage during the twentieth and twenty first centuries some whose works have been intensely analyzed from this perspective William S Burroughs and Walter Benjamin but also some whose collage writing style has recently been investigated by writers being usually placed under the umbrella term of artist books Stelio Maria Martini **Collage in Twenty-First-Century Literature in English** Wojciech Drag, 2019-11-12 Collage in Twenty First Century Literature in English Art of Crisis considers the phenomenon of the continued relevance of collage a form established over a hundred years ago to contemporary literature It argues that collage is a perfect artistic vehicle to represent the crisis ridden reality of the twenty first century Being a mixture of fragmentary incompatible voices collage embodies the chaos of the media dominated world Examining the artistic sociopolitical and personal crises addressed in contemporary collage literature the book argues that the 21st Century has brought a revival of collage like novels and essays **Theories of Forgetting** Lance Olsen, 2014-02-28 Theories of Forgetting is concerned with how words matter the materiality of the page and how a literary work might react against mass reproduction and textual disembodiment in the digital age right from its use of two back covers one upside down and one right side up that allow the reader to choose which of the novel s two narratives to privilege Theories of Forgetting is a narrative in three parts The first is the story of Alana a filmmaker struggling to complete a short documentary about Robert Smithson s famous earthwork The Spiral Jetty located where the Great Salt Lake meets the desert Alana falls victim to a pandemic called The Frost whose symptoms include an increasing sensation of coldness and growing amnesia The second involves Alana s husband Hugh owner of a rare and used bookstore in Salt Lake City and his slow disappearance across Jordan while on a trip both to remember and to forget Alana s death The third involves marginalia added to Hugh s section by his daughter Aila an art critic living in Berlin Aila discovers a manuscript by her father after his disappearance and tries to make sense of it by means of a one sided dialogue with her brother Lance Each page of the novel is divided in half Alana s narrative runs across the top of

the page from back to front while Hugh's and his daughter's tale runs upside down across the bottom of the page from front to back How a reader initially happens to pick up *Theories of Forgetting* determines which narrative is read first and thereby establishing the reader's meaning making of the novel
