Assessing The Assignment Policy For Army Women:

Assessing the Assignment Policy for Army Women Margaret C. Harrell, 2007 The current U S Department of Defense DoD policy for assigning military women was issued in 1994 and the U S Army s assignment policy dates to 1992 In the ensuing years the U S Army has undergone significant technological and organizational transformation which has changed how it organizes and fights There is concern that in the course of operations in Iraq the Army has not been adhering to its own assignment policy as there are several important and potentially problematic differences between the DoD and Army policies For example the DoD policy prohibits the assignment of women to units whose primary mission is direct combat whereas the Army policy prohibits the assignment of women to units with a routine mission of direct combat and their definitions of direct combat differ The research finds that the Army is adhering to the DoD assignment policy but may not be complying with the separate Army assignment policy for women Assessing the Assignment Policy for Army Women serves to inform DoD decisionmaking with regard to the clarity and appropriateness of the current DoD and Army assignment policies especially given how units are operating in Iraq Assessing the Assignment Policy for Army Women Margaret C. Harrell, Laura Werber, Peter Schirmer, Bryan W. Hallmark, Jennifer Erin Kavanagh, 2007-08-31 Since current policies for assigning military women were issued the U S Army has changed how it organizes and fights Assessing the Assignment Policy for Army Women considers whether the Army is adhering to the assignment policies as well as the appropriateness of the current U S Department of Defense and Army assignment policies given how units are operating in Iraq **Assessing the Army's Assignment Policy for Women** Margaret C. Forces and Resources Policy Center, Rand Corporation, 2007 This research brief summarizes important differences between the U S Department of Defense policy on women in the military and that of the U S Army and potential areas in which these can be reconciled to better apply to future military operations Assessing the Assignment Policy for Army Women , 2007 The current U S Department of Defense DoD policy for assigning military women dates to a 1994 memorandum from then Secretary of Defense Les Aspin During the ensuing years the U S military has undergone significant technological and organizational transformation that has resulted in changes in how the military organizes and fights Specifically the Army s recent transformation to modular brigades as well as the differences between military missions in Iraq and the global war on terrorism GWOT more generally and military missions fought on linear battlefields during past military engagements prompted concern among some members of Congress about the role of women in military operations in Iraq Reflecting that Section 541 b of Public Law 109 163 requires the Secretary of Defense to submit a report on the current and future implementation of DoD policy for assigning military women This monograph is intended as input into DoD decision making and focuses on Army operations in Iraq In particular it focuses on the Army s brigade combat teams BCTs that deployed to

Iraq in a modular configuration paying specific attention to the new organic relationships of these BCTs with brigade support battalions BSBs This research was sponsored by the Under Secretary of Defense for Personnel and Readiness and was conducted within the Forces and Resources Policy Center of the RAND National Defense Research Institute

The Lonely Soldier Helen Benedict, 2010-04-01 The Lonely Soldier the inspiration for the documentary The Invisible War vividly tells the stories of five women who fought in Iraq between 2003 and 2006 and of the challenges they faced while fighting a war painfully alone More American women have fought and died in Iraq than in any war since World War Two yet as soldiers they are still painfully alone In Iraq only one in ten troops is a woman and she often serves in a unit with few other women or none at all This isolation along with the military's deep seated hostility toward women causes problems that many female soldiers find as hard to cope with as war itself degradation sexual persecution by their comrades and loneliness instead of the camaraderie that every soldier depends on for comfort and survival As one female soldier said I ended up waging my own war against an enemy dressed in the same uniform as mine In The Lonely Soldier Benedict tells the stories of five women who fought in Iraq between 2003 and 2006 She follows them from their childhoods to their enlistments then takes them through their training to war and home again all the while setting the war's events in context We meet Jen white and from a working class town in the heartland who still shakes from her wartime traumas Abbie who rebelled against a household of liberal Democrats by enlisting in the National Guard Mickiela a Mexican American who grew up with a family entangled in L A gangs Terris an African American mother from D C whose childhood was torn by violence and Eli PaintedCrow who joined the military to follow Native American tradition and to escape a life of Faulknerian hardship Between these stories Benedict weaves those of the forty other Iraq War veterans she interviewed illuminating the complex issues of war and misogyny class race homophobia and post traumatic stress disorder Each of these stories is unique yet collectively they add up to a heartbreaking picture of the sacrifices women soldiers are making for this country Benedict ends by showing how these women came to face the truth of war and by offering suggestions for how the military can improve conditions for female soldiers including distributing women more evenly throughout units and rejecting male recruits with records of violence against women Humanizing urgent and powerful The Lonely Soldier is a clarion call for change

The Air Force Law Review , 2012 Waging Gendered Wars Paige Whaley Eager, 2016-02-24 Waging Gendered Wars examines through the analytical lens of feminist international relations theory how U S military women have impacted and been affected by the wars in Iraq and Afghanistan Although women were barred from serving formally in ground combat positions within the U S armed forces during both wars U S female soldiers are being killed in action By examining how U S military women's agency as soldiers veterans and casualties of war affect the planning and execution of war Whaley Eager assesses
