[The Power of African Cultures](#) Toyin Falola, 2003 An analysis of the ties between culture and every aspect of African life using Africa's past to explain present situations This book focuses on the modern cultures of Africa from the consequences of the imposition of Western rule to the current struggles to define national identities in the context of neo liberal economic policies and globalization The book argues that it is against the backdrop of foreign influences that Africa has defined for itself notions of identity and development African cultures have been evolving in response to change and in other ways solidly rooted in a shared past The book successfully deconstructs the last one hundred and fifty years of cultures that have been disrupted replaced and resurrected

The Power of African Cultures challenges many preconceived notions such as male dominance and female submission the supposed unity of ethnic groups and contemporary Western stereotypes of Africans It also shows the dynamism of African cultures to adapt to foreign imposition even as colonial rule forced the adoption of foreign institutions and cultures African cultures appropriated these elements Traditions were reworked symbols redefined and the past situated in contemporary problems in order to accommodate the modern era

For the time being, African philosophy is treated regularly in research and in teaching at two European scientific institutions: at the University of Vienna and at Erasmus University Rotterdam. In October 1993, there have been held two conferences of Western and African philosophers at both universities. Eleven African and nine Western scholars participated as speakers in these conferences. Four African speakers gave lectures at the Vienna and at the Rotterdam conference. The Vienna conference dealt with general questions of postcolonial philosophy in Africa. The conference at Rotterdam focused on the processes of democratization in African countries since 1989. This volume contains the papers of both conferences. En ce moment, la philosophie africaine est traitée régulièrement dans les recherches et dans l'enseignement de deux instituts scientifiques européens: l'Université de Vienne et l'Université Erasme de Rotterdam. En octobre 1993, deux conférences de philosophes occidentaux et africains ont été organisées aux deux universités. Onze savants africains et neuf savants occidentaux ont participé à ces deux conférences. Quatre savants africains ont présenté des communications lors des deux conférences de Vienne et de Rotterdam. La conférence viennoise s'occupait de questions générales de la philosophie postcoloniale en Afrique. La conférence de Rotterdam focusait aux processus de démocratisation dans des pays africains depuis 1989. Se trouvent en ce volume les contributions des deux conférences.
