Afrique Nord Moyen Orient 2015 2016 Fr D Ric Charillon:

The State in North Africa Luis Martinez, 2020-02-15 Ever since independence revolts and riots in North Africa have structured relations between society and the state While the state has always managed to restore order the unexpected outbreak of the Arab Spring revolts has presented a real challenge to state stability Taking a long term historical perspective this book analyses how public authorities have implemented policies to manage the Maghreb s restive societies viewed at first as retrograde and then as radicalised National cohesion has been a major concern for post colonial leaders who aim to build strong states capable of controlling the population Historically North African nations found colonial oppression to be the very bond that united them but what continues to hold these communities and nation states together after independence If public interest is not at the heart of the state s actions how can national loyalties be maintained Luis Martinez analyses how states approach these questions showing that the fight against jihadist groups both helps to reconstruct essential ties of state belonging and also promotes the development of a border control policy He highlights the challenges posed by fragile political communities and weak state instruments and the response of leaders striving to build peaceful pluralistic nations in North Africa
