Aftermath Following The Bloodshed Of Americas Wars In The Muslim World

Norman Hillmer,Philippe Lagassé

Aftermath Following The Bloodshed Of Americas Wars In The Muslim World:

Aftermath Nir Rosen, 2010-10-26 Nir Rosen's *Aftermath* an extraordinary feat of reporting follows the contagious spread of radicalism and sectarian violence that the U S invasion of Iraq and the ensuing civil war have unleashed in the Muslim world. Rosen, who the *Weekly Standard* once bitterly complained has great access to the Baathists and jihadists who make up the Iraqi insurgency, has spent nearly a decade among warriors and militants who have been challenging American power in the Muslim world. In *Aftermath* he tells their story showing the other side of the U S war on terror traveling from the battle scarred streets of Baghdad to the alleys, villages, refugee camps, mosques, and killing grounds of Jordan, Syria, Egypt, Lebanon, and finally Afghanistan where Rosen has a terrifying encounter with the Taliban as their guest and witnesses the new Obama surge fizzling in southern Afghanistan. Rosen was one of the few Westerners to venture inside the mosques of Baghdad to witness the first stirrings of sectarian hatred in the months after the U S invasion. He shows how weapons, tactics, and sectarian ideas from the civil war in Iraq penetrated neighboring countries and threatened their stability, especially Lebanon and Jordan where new jihadist groups mushroomed. Moreover, he shows that the spread of violence at the street level is often the consequence of specific policies hatched in Washington D C. Rosen offers a seminal and provocative account of the surge told from the perspective of U S troops on the ground, the Iraqi security forces, Shiite militias, and Sunni insurgents that were both allies and adversaries. He also tells the story of what happened to these militias once they outlived their usefulness to the Americans. *Aftermath* is both a unique personal history and an unsparing account of what America has wrought in Iraq and the region. The result is a hair-raising 360 degree view of the modern battlefield, its consequent humanitarian catastrophe, and the reality of counterinsurgency.

Arms and the Man Michael S. Neiberg, 2011-05-10 These essays honor Dennis Showalter, a pioneer in the field of military history. Written by some of the most highly respected scholars in the field, they cover a wide range of topics from the ancient world to the present day.

The Invisible Arab Marwan Bishara, 2012-01-31 *The Invisible Arab* traces the roots of the revolutions in the Arab world. Marwan Bishara, chief policy analyst of Al Jazeera English and the anchor of the program *Empire*, combines on-the-ground reporting, extensive research, and scholarship and political commentary in this book on the complex influences that made the revolutions possible. Bishara argues that the inclusive pluralistic nationalism that motivated the revolutions are indispensable to their long-term success. *The Invisible Arab* is a voyage in time from the Arab world's liberation generation through the defeated and lost generations arriving at today's miracle generation. Bishara unpacks how this new generation, long seen as a demographic bomb, has proved to be the agent of progress, unity, and freedom. It has in turn used social networks to mobilize for social justice. Bishara discusses how Israel, oil, terrorism, and radical Islam have affected the interior identity of the region as well as Western projections upon it. Protection of Israel, Western imperial ambition, a thirst for oil, and fear of radicalism have caused many Western regimes and media to characterize Arab countries and people as unreceptive to democracy or progress. These ideas are as one

dimensional as they are foolhardy Bishara argues that the Arab revolutions present a great window of opportunity for reinventing and improving Arab ties with the rest of the world notably the West on the basis of mutual respect and mutual interest The revolutions will be judged by how they realize freedom and justice and how they can pave the way for reconciling and accommodating nationalism and Islam with democracy Bishara argues that these pillars liberty and justice reconciled with religion and nationalism form the bedrock that will allow stability and progress to flourish in the Arab world and beyond Hearts and Minds Hannah Gurman,2013-10-01 The first book of its kind Hearts and Minds is a scathing response to the grand narrative of U S counterinsurgency in which warfare is defined not by military might alone but by winning the hearts and minds of civilians Dormant as a tactic since the days of the Vietnam War in 2006 the U S Army drafted a new field manual heralding the resurrection of counterinsurgency as a primary military engagement strategy counterinsurgency campaigns followed in Iraq and Afghanistan despite the fact that counterinsurgency had utterly failed to account for the actual lived experiences of the people whose hearts and minds America had sought to win Drawing on leading thinkers in the field and using key examples from Malaya the Philippines Vietnam El Salvador Iraq and Afghanistan Hearts and Minds brings a long overdue focus on the many civilians caught up in these conflicts Both urgent and timely this important book challenges the idea of a neat divide between insurgents and the populations from which they emerge and should be required reading for anyone engaged in the most important contemporary debates over U S military policy

Faith and Resistance Sarah Marusek,2018-05-20 What kind of decolonial possibilities exist in today s world Exploring the rise of Islamic activism in Lebanon and the Middle East and drawing transnational parallels with other revolutionary religious struggles in Latin America and South Africa Sarah Marusek offers a timely analysis of the social and political evolution of Islamic movements The growing popularity of Islamic movements means that many groups which emerged in opposition to Western imperialism are now also gaining increasing economic and political powers Based on more than two and a half years of ethnographic fieldwork in Lebanon Marusek paints a picture of how resistance is lived and reproduced in daily lives tracing the evolution of the ideas and practices of the charities affiliated with Hizbullah and the wider Islamic resistance movement Adopting a dialectical approach Faith and Resistance discusses the possibility for resistance groups to reconcile acquiring power with their decolonial aspirations In doing so the book acts as a guide for liberation struggles and those engaged in resistance the world over *The American War in Afghanistan* Carter Malkasian,2021 A history of the war in Afghanistan between 2001 and 2020 The work follows a narrative format to go through the 2001 US invasion the state building of 2002 2005 the Taliban offensive of 2006 the US surge of 2009 2011 the subsequent drawdown and the peace talks of 2019 2020 **Depicting the Veil** Robin L. Riley,2013-09-12 This powerful book exposes how gendered Orientalism is wielded to justify Western imperialism Over the last ten years Western governments and mainstream media have utilized concepts of white masculine supremacy and feminine helplessness juxtaposed with Orientalist images depicting women of

color as mysterious sinister and dangerous to support war Oscillating between Mrs Anthrax female suicide bomber and tragic helpless victim representations of brown women have spawned both rescue narratives and terrorist alerts Examining media and pop culture from Sex and the City 2 to Vanity Fair and Time magazine Robin Riley uses transnational feminist analysis to reveal how this kind of transnational sexism towards Muslim women in general and Afghan and Iraqi women in particular has led to a new form of gender imperialism *Justin Trudeau and Canadian Foreign Policy* Norman Hillmer, Philippe

Lagassé, 2018-05-12 This book offers the first comprehensive analysis of Canadian foreign policy under the government of Justin Trudeau with a concentration on the areas of climate change trade Indigenous rights arms sales refugees military affairs and relationships with the United States and China At the book's core is Trudeau's biggest and most unexpected challenge the election of Donald Trump as president of the United States Drawing on recognized experts from across Canada this latest edition of the respected Canada Among Nations series will be essential reading for students of international relations and Canadian foreign policy and for a wider readership interested in Canada's age of Trudeau See other books in the Canada Among Nations series here <https://carleton.ca/npsia/canada-among-nations> **Wrong Turn** Gian

Gentile, 2015-03-03 A searing indictment of US strategy in Afghanistan from a distinguished military leader and West Point military historian A remarkable book National Review In 2008 Col Gian Gentile exposed a growing rift among military intellectuals with an article titled Misreading the Surge Threatens U S Army's Conventional Capabilities that appeared in World Politics Review While the years of US strategy in Afghanistan had been dominated by the doctrine of counterinsurgency COIN Gentile and a small group of dissident officers and defense analysts began to question the necessity and efficacy of COIN essentially armed nation building in achieving the United States limited core policy objective in Afghanistan the destruction of Al Qaeda Drawing both on the author's experiences as a combat battalion commander in the Iraq War and his research into the application of counterinsurgency in a variety of historical contexts Wrong Turn is a brilliant summation of Gentile's views of the failures of COIN as well as a trenchant reevaluation of US operations in Afghanistan Gentile is convinced that Obama's surge in Afghanistan can't work And if Afghanistan doesn't turn around soon the Democrats who have come to embrace the Petraeus Nagl view of modern warfare may find themselves wondering whether it's time to go back to the drawing board The New Republic **Modern Middle East Authoritarianism**

Nouredine Jebnoun, Mehrdad Kia, Mimi Kirk, 2013-07-31 While the Arab uprisings have overturned the idea of Arab exceptionalism or the acceptance of authoritarianism better analysis of authoritarianism's resilience in pre and post uprising scenarios is still needed Modern Middle East Authoritarianism Roots Ramifications and Crisis undertakes this task by addressing not only the mechanisms that allowed Middle Eastern regimes to survive and adapt for decades but also the obstacles that certain countries face in their current transition to democracy This volume analyzes the role of ruling elites Islamists and others as well as variables such as bureaucracy patronage the strength of security apparatuses and ideological

legitimacy to ascertain regimes life expectancies and these factors post uprisings repercussions Discussing not only the paradigms through which the region has been analyzed but also providing in depth case studies of Tunisia Egypt Libya Algeria Saudi Arabia Iraq and Iran the authors arrive at critical conclusions about dictatorship and possibilities for its transformation Employing diverse research methods including interviews participant observation and theoretical discussions of authoritarianism and political transition this book is essential reading for scholars of Middle East Studies Islamic Studies and those with an interest in the governance and politics of the Middle East
