Arbeiders Of Volkspartij Een Vergelijkende Studie Van Het Belgisch En Nederland Socialisme 1933 1946:

Political Violence and Democracy in Western Europe, 1918-1940 Kevin Passmore,Chris Millington,2015-07-16 The essays in this book concern manifestations of political violence in the democracies of interwar Europe While research in this area usually focuses on the countries that fell to fascism the authors demonstrate that violence remained a part of political competition in the democratic regimes of Western Europe too

Political Catholicism in Europe 1918-1945 Wolfram Kaiser,Helmut Wohnout,2004-01-01 This book examines the role of Catholic parties in inter war Europe in a systematically pan European comparative perspective Specific country chapters address key questions about the parties membership and social organization their economic and social policies and their European and international policies at a time of increasing national and ethnic conflict and the book includes two survey chapters explaining the origins of political catholicism in 19th century Europe and comparing the parties interwar development and two chapters on transnational party contacts Along with its companion volume Christian Democracy in Europe Since 1945 also published in 2004 students will have an

abundandce of information to guide them through their studies on this fascinating subject **Left Catholicism, 1943-1955** Gerd-Rainer Horn,Emmanuel Gerard,2001 Decisively shaped by the turbulent atmosphere of war occupation and resistance the years 1943 1955 gave rise to a most unusual flowering of progressive initiatives in Catholic politics theology and apostolic missions Though suffering severe setbacks in the deep freeze of the Cold War politics mid Century European Left Catholicism was not without influence in the subsequent emergence of Latin American Liberation Theology and the deliberations of the Vatican II This volume constitutes the first attempt to analyse the phenomenon of Western European Left Catholicism from a comparative and transnational perspective

Europe in Exile Martin Conway,José Gotovitch,2001 During World War 2 London was transformed into a European city as it unexpectedly became a place of refuge for many thousands of European citizens seeking refuge from military campaigns on the Continent of Europe

Transnational Moments of Change Padraic Kenney,Gerd Rainer-Horn,2004-01-29 Transnational Moments of Change offers a broad introduction to the methodology and practice of transnational history To demonstrate the value of this approach the work focuses on Europe since World War II a period whose study particularly benefits from a transnational vantage point Twelve distinguished contributors from around the globe offer a range of transnational approaches to three continent wide moments of change The work begins with a look at the close of World War Two when liberation from Nazi occupation offered the opportunity for social and political experiment Next essays explore the late 1960s as generational change and political dissatisfaction rocked urban centers from Paris to Prague Finally the book turns to the fall of communism a moment of revolutionary change that not only spread rapidly from country to country but even affected and interacted with protest movements in Western Europe and elsewhere Together the essays provide both a new perspective on postwar Europe and a range of models for the historian interested in using the transnational approach

Towards an Era of Development Peter

van Kemseke, 2006 KADOC Studies on Religion Culture and Society 5 In the twenty years after the end of World War II a Third World was added to the Cold War concepts of the First and Second worlds and postwar decolonization ushered in an era of development For the first time theories and policies designed to eradicate underdevelopment became prominent on the agenda of the United Nations This international evolution inevitably had a dramatic impact on socialism and Christian democracy two major ideologies with their roots in Western Europe Both became part of the global political dialogues taking place beyond Europe's borders The result was a sometimes violent clash of Western and non Western belief systems In Towards an Era of Development Peter Van Kemseke explores the questions of whether political ideologies were being used as vehicles for promoting national interests and if socialism and Christian democracy were forced on developing nations or naturally spread to new parts of the globe Van Kemseke also offers an assessment of the success of these ideologies in their new territories
