Founded by Nadia Russ in 2008 **Photography for Architects** Martine Hamilton Knight, 2024-01-19 Shortlisted for the Architectural Book Awards 2024 We live in a world driven by images but with so much visual noise is anyone really looking How does an architect ensure their portfolio is within view of the right audience Photographs are still as vital to architectural practice as they ever were However creation and circulation once in the hands of skilled professionals is now perceived as being free and within easy reach of all But where is the clarity What is the message By setting out the case for curated image making considered photography may again be placed at the centre of architectural marketing strategies Photography for Architects guides the reader through various topics from establishing a visual brand and sharing images online to producing content in house and commissioning professionals It explores the still and moving image creating books and exhibitions for legacy value compiling award entries and engaging with trade press Little understood aspects regarding legal rights and obligations ethics copyright and licensing images for use are discussed in clear language Multiple photographic examples and conversations with international practitioners highlight the various themes throughout Written by a working architectural photographer whose life has been spent in commercial practice this easy to read richly illustrated guide is essential reading for architects and designers alike who are working with images and image makers **Research Methods for Architecture** Ray Lucas, Raymond Lucas, 2016-01-18 While fundamentally a design discipline architectural education requires an element of history and theory grouped under the term research However many students struggle with this part of their course This practical handbook provides the necessary grounding in this subject addressing essential questions about what research in architecture can be The first part of the book is a general guide to the fundamentals of how to do research from assembling a literature review to conducting an interview The second section presents a selection of case studies dealing with such topics as environmental psychology the politics of space ethnographic research and mapping *Capturing the Essence of Architecture* Dan Bardloom, Architecture is the art of creating spaces that not only provide functionality but also inspire and evoke emotions It is an expression of human creativity and ingenuity and photography can help capture the beauty of these creations Architecture photography is not just about capturing buildings it is about capturing the essence of the space and the emotions it evokes This book is a comprehensive guide to architecture photography and it will provide readers with the knowledge and tools to capture stunning images that convey the essence of architecture Digital Draw Connections Fabio Bianconi, Marco Filippucci, 2021-04-27 This book stems from the seminal work of Robert Venturi and aims at re projecting it in the current cultural debate by extending it to the scale of landscape and placing it in connection with representative issues It brings out the transdisciplinary synthesis of a necessarily interdisciplinary approach to the theme aimed at creating new models which are able to represent the complexity of a contradictory reality and to redefine the centrality of human dimension As such the volume gathers multiple experiences developed in different geographical areas

which come into connection with the role of representation Composed of 43 chapters written by 81 authors from around the world with an introduction by Jim Venturi and Cezar Nicolescu the volume is divided into two parts the first one more theoretical and the other one which showcases real world applications although there is never a total split between criticism and operational experimentation of research
