Paul Allain, Jen Harvie

Architecture Actor And Audience Theatre Concepts:

Architecture, Actor and Audience Iain Mackintosh, 2003-09-02 Explores the contribution the design of a theatre can make to the theatrical experience It also examines the failure of many modern theatres to appeal to audiences and theatre people

Theatre and Performance Design Jane Collins, Andrew Nisbet, 2012-10-02 Theatre and Performance Design A Reader in Scenography is an essential resource for those interested in the visual composition of performance and related scenographic practices Theatre and performance studies cultural theory fine art philosophy and the social sciences are brought together in one volume to examine the principle forces that inform understanding of theatre and performance design The volume is organised thematically in five sections looking the experience of seeing space and place the designer the scenographic bodies in space making meaning This major collection of key writings provides a much needed critical and contextual framework for the analysis of theatre and performance design By locating this study within the broader field of scenography the term increasingly used to describe a more integrated reading of performance this unique anthology recognises the role played by all the elements of production in the creation of meaning Contributors include Josef Svoboda Richard Foreman Roland Barthes Oscar Schlemmer Maurice Merleau Ponty Richard Schechner Jonathan Crary Elizabeth Wilson Henri Lefebvre Adolph Appia and Herbert Blau

The Routledge Companion to Theatre and Performance Paul Allain, Jen Harvie, 2014-08-01 What is theatre What is performance What connects them and how are they different What events people practices and ideas have shaped theatre and performance in the twentieth and twenty first century The Routledge Companion to Theatre and Performance offers some answers to these big questions It provides an analytical informative and engaging introduction to important people companies events concepts and practices that have defined the complementary fields of theatre and performance studies This fully updated second edition contains three easy to use alphabetized sections including over 120 revised entries on topics and people ranging from performance artist Ron Athey to directors Vsevolod Meyerhold and Robert Wilson megamusicals postdramatic theatre and documentation Each entry includes crucial historical and contextual information extensive cross referencing detailed analysis and an annotated bibliography The Routledge Companion to Theatre and Performance is a perfect reference guide for the keen student

Mapping Irish Theatre Chris Morash, Shaun Richards, 2013-12-12 Seamus Heaney once described the sense of place generated by the early Abbey theatre as the imaginative protein of later Irish writing Drawing on theorists of space such as Henri Lefebvre and Yi Fu Tuan Mapping Irish Theatre argues that theatre is a machine for making place from space Concentrating on Irish theatre the book investigates how this Irish sense of place was both produced by and produced the remarkable work of the Irish Revival before considering what happens when this spatial formation begins to fade Exploring more recent site specific and place specific theatre alongside canonical works of Irish theatre by playwrights including J M Synge Samuel Beckett and Brian Friel the study proposes an original theory of theatrical space and theatrical identification whose application extends

beyond Irish theatre and will be useful for all theatre scholars

Spaces in Architecture Bert Bielefeld, 2019-04-01 The design of a building is a complex process in which the architect develops spaces which are defined by a number of different parameters The most important of these are space requirements distances furniture and fittings and movement zones From the dimensions of the human body it is possible to derive guide values for these reference sizes that make spaces comfortable to be in and to use Spaces in Architecture is a useful reference work for students and designers for quickly looking up detailed information on space scenarios that occur in many different types of buildings For example the book lists all important dimensions for entrance areas doors staircases ramps and elevators On the basis of this fundamental information it is possible to design buildings in terms of function and type
