Asian Cinemas A Reader And Guide:

Asian Cinemas Dimitris Eleftheriotis, Gary Needham, 2006-03-31 The West's current fascination with Asian cinema must be viewed in the context of a complex and often problematic relationship between Western scholars, students, viewers and Asian films. This book examines a number of detailed case studies such as the films of Ozu, Bruce Lee, Hong Kong and Turkish cinema, Hindi melodramas, Godzilla films, Taiwanese directors and Fifth Generation Chinese cinema and uses them to investigate the limitations of Anglo-US theoretical models and critical paradigms. By engaging readers with familiar areas of critical discourse such as postcolonial criticism, national cinema, genre, authorship and stardom, the book aims to introduce within such contexts the unfamiliar case studies that will be explored in depth and detail. *The Routledge Companion to Asian Cinemas* Zhen Zhang, Sangjoon Lee, Debashree Mukherjee, Intan Paramaditha, 2024-07-04 Balancing leading scholars with emerging trendsetters, this Companion offers fresh perspectives on Asian cinemas and charts new constellations in the field with significance far beyond Asian cinema studies. Asian cinema studies at the intersection of film, media studies and area studies has rapidly transformed under the impact of globalization, compounded by the resurgence of a variety of nationalist discourses as well as counter discourses, new socio-political movements and the possibilities afforded by digital media. Differentiated experiences of climate change and the COVID-19 pandemic have further heightened interest in the digital everyday and the renewed geopolitical divide between East and West and between North and South. Thematized into six sections, the 46 chapters in this anthology address established paradigms of scholarship and viewership in Asian cinemas like extreme genres, cinephilia, festivals and national cinema while also highlighting political and archival concerns that firmly situate Asian cinemas within local and translocal milieus. Underrepresented cinemas of North Korea, Bangladesh, Laos, Indonesia, Malaysia, Taiwan, Thailand and Cambodia appear here amidst a broader cross-regional comparative approach. An ideal resource for film, media, cultural and Asian studies researchers, students and scholars as well as informed readers with an interest in Asian cinemas. *The Asian Cinema Experience* Stephen Teo, 2013 This book explores the range and dynamism of contemporary Asian cinemas covering East Asia (China, Japan, South Korea, Hong Kong, Taiwan), Southeast Asia (Thailand, Singapore, Malaysia), South Asia (Bollywood) and West Asia (Iran) in order to discover what is common about them and to engender a theory or concept of Asian Cinema. It goes beyond existing work which provides a field survey of Asian cinema, probing more deeply into the field of Asian Cinema, arguing that Asian Cinema constitutes a separate pedagogical subject and putting forward an alternative cinematic paradigm. The book covers styles including the works of classical Asian Cinema masters and specific genres such as horror films and Bollywood and Anime, two very popular modes of Asian Cinema, spaces including artistic use of space and perspective in Chinese cinema, geographic and personal space in Iranian cinema, the private, erotic space of films from South Korea and Thailand and the persistence of the family unit in the urban spaces of Asian big cities in many Asian films and concepts such as Pan-Asianism, Orientalism, Nationalism and Third Cinema. The rise of

Asian nations on the world stage has been coupled with a growing interest both inside and outside Asia of Asian culture of which film is increasingly an indispensable component this book provides a rich insightful overview of what exactly constitutes Asian Cinema **East Asian Cinemas** V.
