Assertive Outreach In Mental Health A Manual For Practitioners Oxford Medical Publications:

Assertive Outreach in Mental Health Tom Burns, Mike Firn, 2002 Assertive Outreach is the treatment of choice for the severely mentally ill in the community It involves taking services to the patients rather than requiring them to attend hospitals and clinics The model is one of a high staff to patient ratio offering comprehensive health and social care Assertive Outreach is a targeted and refined application of the existing practice of community mental health teams an evolution of community policy rather than a revolutionary change Research evidence and outcome data suggests it results in reduced hospitalizations promotes effective engagement with difficult patients and improves patient wellbeing As a policy it has been implemented successfully in Australia the USA and Europe and it is now being adopted nationally in the UK This book will equip all members of the multidisciplinary Assertive Outreach team with a clear understanding of the essential processes and interventions involved Tom Burns and Mike Firn are pioneers in this field and have been running an Assertive Outreach team for seven years They have been awarded Beacon status by the UK Department of Health to reflect their excellence and are heavily involved in teaching others setting out on the same path

Assertive Outreach in Mental Healthcare Caroline Williams, Mike Firn, Simon Wharne, Rob MacPherson, 2011-02-08 Assertive Outreach in Mental Healthcare Current Perspectives explores experiences successes interventions and service user stories as well as lessons learned from the implementation experience surrounding assertive intervention It provides a synthesis of expert experience in the field as well as experiences of grass roots team practitioners This book makes a valuable contribution to the field by addressing in depth a wide range of topics critical to the delivery of assertive outreach services and providing practitioners with a manual into which they can feed lessons learned from other teams for continuous service improvement This book is an essential reference for anyone with an interest in assertive outreach and community treatment approaches in mental health Special features Provides a contemporary analysis of current service developments in the area Written by experts in the field Covers cross cutting issues relevant to all areas of community mental health care Includes multiple perspectives service user researcher service manager commissioner clinician and carer Covers both service delivery and therapeutic interventions Explores how the assertive outreach model is applied in the UK and Europe

Recovery in Mental Health Michaela Amering, Margit Schmolke, 2009-02-17 Winner of Medical Journalists Association Specialist Readership Award 2010 Recovery is widely endorsed as a guiding principle of mental health policy Recovery brings new rules for services e g user involvement and person centred care as well as new tools for clinical collaborations e g shared decision making and psychiatric advance directives These developments are complemented by new proposals regarding more ethically consistent anti discrimination and involuntary treatment legislation as well as participatory approaches to evidence based medicine and policy Recovery is more than a bottom up movement turned into top down mental health policy in English speaking countries Recovery integrates concepts that have evolved internationally over a long time It brings together major stakeholders and different

professional groups in mental health who share the aspiration to overcome current conceptual reductionism and prognostic negativism in psychiatry Recovery is the consequence of the achievements of the user movement Most conceptual considerations and decisions have evolved from collaborations between people with and without a lived experience of mental health problems and the psychiatric service system Many of the most influential publications have been written by users and ex users of services and work groups that have brought together individuals with and without personal experiences as psychiatric patients In a fresh and comprehensive look this book covers definitions concepts and developments as well as consequences for scientific and clinical responsibilities Information on relevant history state of the art and transformational efforts in mental health care is complemented by exemplary stories of people who created through their lives and work an evidence base and direction for Recovery This book was originally published in German The translation has been fully revised references have been amended to include the English language literature and new material has been added to reflect recent developments It features a Foreword by Helen Glover who relates how there is more to recovery than the absence or presence of symptoms and how health care professionals should embrace the growing evidence that people can reclaim their lives and often thrive beyond the experience of a mental illness Comments on German edition It is fully packed with useful information for practitioners is written in jargon free language and has a good reading pace Theodor Itten St Gallen Switzerland and Hamburg Germany This book is amazingly positive It not only talks about hope it creates hope Its therapeutic effects reach professional mental health workers service users and carers alike Fleet footed and easily understandable at times it reads like a suspense novel Andreas Knuf pro mente sana Switzerland This is the future of psychiatry cheered a usually service oriented manager after reading the book We might not live to see it Ilse Eichenbrenner Soziale Psychiatrie Germany

Coercion in Community Mental Health Care Andrew Molodynski, Jorun Rugkåsa, Tom Burns, 2016-07-21 The use of coercion is one of the defining issues of mental health care Since the earliest attempts to contain and treat the mentally ill power imbalances have been evident and a cause of controversy There has always been a delicate balance between respecting autonomy and ensuring that those who most need treatment and support are provided with it Coercion in Community Mental Health Care International Perspectives is an essential guide to the current coercive practices worldwide both those founded in law and those informal processes whose coerciveness remains contested It does so from a variety of perspectives drawing on diverse disciplines such as history law sociology anthropology and medicine to provide a comprehensive summary of the current debates in the field Edited by leading researchers in the field Coercion in Community Mental Health Care International Perspectives provides a unique discussion of this prominent issue in mental health Divided into five sections covering origins and extent evidence experiences context and international perspectives this is ideal for mental health practitioners social scientists ethicists and legal professionals wishing to expand their knowledge of the subject area

Community Mental Health Teams Tom Burns, 2004-04-01 Community Mental Health Teams CMHTs

have evolved over the last 30 40 years to serve patients with mental illnesses who would previously have been treated in large mental hospitals They play a pivotal role in the provision of mental health care in the developed world Consisting of nurses doctors social workers and psychologists the people within these teams work together to care for individuals with severe mental illnesses outside the hospital Because CMHTs have evolved rather than been developed little has been written about how they should work how the multidisciplinary members of the teams can work effectively together who should do what within the team This is the first book to provide practical advice for those working within these teams It addresses the needs of the individual specialists within the CMHT and provides clinical advice based on what has been seen to work The book also looks at the recent development of functional CMHTs Assertive Outreach Crisis resolution and early intervention services describing how these teams work their similarities and their differences Written by a leading authority in this field the book will become the standard text for all those specialists working within and close to community mental health teams

Mental Health Nursing Stephan D. Kirby, Denis Hart, Dennis Cross, 2017-03-14 Pre registration nurse training across the UK is now competency based and this is the first mental health nursing text devoted to this approach It explores the practical application of a competency based Exit Profile for mental health nursing students which ensures that there is consistency in the essential knowledge skills and attitudes that mental health nursing students will acquire by the end of their training programmes This timely and contemporary text will be an essential resource for all Mental Health Branch nursing students

Crisis Resolution and Home Treatment in Mental Health Sonia Johnson, 2008-07-31 Crisis resolution and home treatment teams respond rapidly to people experiencing mental health crises and offer an alternative to hospital admission They are an increasingly important component of mental health care and are adopted by many health care systems around the world This practical and pioneering book describes the evidence for the effectiveness of such teams the principles underpinning them how to set up and organise them how patients should be assessed and what types of care the teams should offer Other topics covered include integration of crisis teams with in patient community residential and day care services the service users experiences of crisis teams and responding to diversity in home treatment This book is essential reading for all policy makers service managers and mental health workers interested in establishing or operating crisis resolution and home treatment services as well as for researchers and students seeking to understand this model

Reaching Out Caroline Cupitt, 2009-09-10 Reaching Out examines the application of psychological approaches in assertive outreach a process which involves forming new relationships and offering hope to people who have been alienated from traditional methods

Seminars in General Adult Psychiatry George Stein, Greg Wilkinson, 2007-04 This second edition of *Seminars in General Adult Psychiatry* provides a highly readable and comprehensive account of modern adult psychiatry Key features of the first edition that have been retained are the detailed clinical descriptions of psychiatric disorders and historical sections to give the reader access to the classic studies of psychiatry as well as the current evidence Additional

topics covered here for the first time include liaison psychiatry psychosexual medicine clinical epidemiology and international and cultural psychiatry Clinical management is given due prominence with extensive accounts of modern drug management cognitive therapy the main psychosocial approaches and current guidelines such as those published by the National Institute for Health and Care Excellence An essential text for trainees studying for their MRCPsych this book is also a one stop reference work for established practitioners providing comprehensive coverage of the whole of adult psychiatry Outreach in Community Mental Health Care Tom Burns, Mike Firn, 2017-07-03 Outreach in the community is the treatment of choice for the severely mentally ill in the community It involves taking services directly to patients rather than requiring them to attend clinics and hospitals This approach is a significant addition to routine mental health care practice and addresses the needs of marginalized communities and those that struggle to attend appointments Outreach in Community Mental Health Care A Manual for Practitioners has been fully updated since the last edition providing readers with an in depth practical guide to mental health care in the community setting today It addresses the significant changes in mental health service organizations over the years including the various new teams devised and the importance of central planning and targets The authors Tom Burns and Mike Firn are pioneers in this field of research and are active in community outreach as practitioners researchers and supervisors In 29 chapters they cover key discussions in conceptual issues health and social care practice management and development which provides readers with an insight into the reality of community outreach work
