Assessing Restoring Post Conflict Peacebuilding Management:

Assessing and Restoring Natural Resources In Post-Conflict Peacebuilding David Jensen, Stephen Loneragan, 2013-02-15 When a country emerges from violent conflict the management of the environment and natural resources has important implications for short term peacebuilding and long term stability particularly if natural resources were a factor in the conflict play a major role in the national economy or broadly support livelihoods Only recently however have the assessment harnessing and restoration of the natural resource base become essential components of postconflict peacebuilding This book by thirty five authors examines the experiences of more than twenty countries and territories in assessing post conflict environmental damage and natural resource degradation and their implications for human health livelihoods and security The book also illustrates how an understanding of both the risks and opportunities associated with natural resources can help decision makers manage natural resources in ways that create jobs sustain livelihoods and contribute to economic recovery and reconciliation without creating new grievances or significant environmental degradation Finally the book offers lessons from the remediation of environmental hot spots restoration of damaged ecosystems and reconstruction of the environmental services and infrastructure necessary for a sustainable peace Assessing and Restoring Natural Resources in Post Conflict Peacebuilding is part of a global initiative to identify and analyze lessons in post conflict peacebuilding and natural resource management The project has generated six books of case studies and analyses with contributions by practitioners policy makers and researchers Other books address highvalue resources land water livelihoods and governance

Governance, Natural Resources and Post-Conflict Peacebuilding Carl Bruch, Carroll Muffett, Sandra Nichols, 2016-04-07 When the guns are silenced those who have survived armed conflict need food water shelter the means to earn a living and the promise of safety and a return to civil order Meeting these needs while sustaining peace requires more than simply having governmental structures in place it requires good governance Natural resources are essential to sustaining people and peace in post conflict countries but governance failures often jeopardize such efforts This book examines the theory practice and often surprising realities of post conflict governance natural resource management and peacebuilding in fifty conflict affected countries and territories It includes thirty nine chapters written by more than seventy researchers diplomats military personnel and practitioners from governmental intergovernmental and nongovernmental organizations The book highlights the mutually reinforcing relationship between natural resource management and good governance Natural resource management is crucial to rebuilding governance and the rule of law combating corruption improving transparency and accountability engaging disenfranchised populations and building confidence after conflict At the same time good governance is essential for ensuring that natural resource management can meet immediate needs for post conflict stability and development while simultaneously laying the foundation for a sustainable peace Drawing on analyses of the close relationship between governance and natural resource management the

book explores lessons from past conflicts and ongoing reconstruction efforts illustrates how those lessons may be applied to the formulation and implementation of more effective governance initiatives and presents an emerging theoretical and practical framework for policy makers researchers practitioners and students Governance Natural Resources and Post Conflict Peacebuilding is part of a global initiative to identify and analyze lessons in post conflict peacebuilding and natural resource management The project has generated six books of case studies and analyses with contributions from practitioners policy makers and researchers Other books in this series address high value resources land water livelihoods and assessing and restoring natural resources

Livelihoods, Natural Resources, and Post-Conflict Peacebuilding Helen Young, Lisa Goldman, 2015-04-10 Sustaining and strengthening local livelihoods is one of the most fundamental challenges faced by post conflict countries By degrading the natural resources that are essential to livelihoods and by significantly hindering access to those resources conflict can wreak havoc on the ability of war torn populations to survive and recover This book explores how natural resource management initiatives in more than twenty countries and territories have supported livelihoods and facilitated post conflict peacebuilding Case studies and analyses identify lessons and opportunities for the more effective design of interventions to support the livelihoods that depend on natural resources from land to agriculture forestry fisheries and protected areas The book also explores larger questions about how to structure livelihoods assistance as part of a coherent integrated approach to post conflict redevelopment Livelihoods and Natural Resources in Post Conflict Peacebuilding is part of a global initiative to identify and analyze lessons in post conflict peacebuilding and natural resource management The project has generated six books of case studies and analyses with contributions from practitioners policy makers and researchers Other books in this series address high value resources land water assessing and restoring natural resources and governance

Water and Post-Conflict Peacebuilding Erika Weinthal, Jessica J. Troell, Mikiyasu Nakayama, 2014-02-24 As a basic human need the provision of safe water is among the highest priorities of government and humanitarian interventions during post conflict recovery and peacebuilding In the aftermath of war water sanitation and infrastructure play a critical role in the recovery of livelihoods and economic development Moreover shared waters have great potential for interstate cooperation assisting to rebuild trust following conflict and to prevent a return to conflict This volume draws on studies from around the world to create a framework for understanding how water resources decisions and activities can facilitate or undermine peacebuilding in a post conflict setting

Rethinking Climate Change, Conflict and Security Jan Selby, Clemens Hoffmann, 2017-10-02 Is global climate change likely to become a significant source of violent conflict and should it therefore be seen as a national security challenge Most Northern governments militaries think tanks and NGOs believe so as do many academic researchers on the grounds that increased temperatures changing precipitation patterns and rising sea levels will worsen existing social stresses especially within poor societies and marginal communities across Africa and Asia This book argues otherwise The first collection of its kind it brings together leading scholars of

Anthropology Geography Development Studies and International Relations to provide a series of critical analyses of mainstream thinking on the climate security nexus It shows how policy discourse on climate conflict consistently misrepresents the causes of violence especially by obscuring its core political dimensions It demonstrates that quantitative research provides a flawed basis for understanding climate conflict linkages It argues that climate security discourse is in hoc with a range of questionable military authoritarian and developmental agendas And it reveals that the greening of global capitalism is already having violent consequences across the global South Climate change the book argues does indeed have serious conflict and security implications but these are quite different from how they are usually imagined This book was published as a special issue of *Geopolitics* *Environmental Protection and Transitions from Conflict to Peace* Carsten Stahn, Jens Iverson, Jennifer S. Easterday, 2017-10-13 This is an open access title available under the terms of a CC BY NC ND 4.0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations Environmental protection is fundamental for the establishment of sustainable peace Applying traditional legal approaches to protection raises particular challenges during the transition from conflict to peace In the jus post bellum context protection of the environment and natural resources needs to be considered in tandem with a broad range of simultaneously applicable normative frameworks such as human rights transitional justice arms control disarmament UN law and practice development and domestic law While certain multilateral environment agreements such as the Convention Concerning the Protection of the World Cultural and Natural Heritage protect the environment international humanitarian law and international criminal law continue to treat environmental protection largely from an anthropocentric perspective This book is the first targeted work in the legal literature that investigates environmental challenges in the aftermath of conflict Addressing these challenges it brings together academics policy makers and practitioners from different disciplines to clarify policies and practices of environmental protection and key normative frameworks It draws on experiences and practices in post conflict settings to specify substantive principles and techniques to remedy and prevent harm *Routledge Handbook of Environmental Security* Richard A. Matthew, Evgenia Nizkorodov, Crystal Murphy, 2021-12-21 The Routledge Handbook on Environmental Security provides a comprehensive accessible and sophisticated overview of the field of environmental security The volume outlines the defining theories major policy and programming interventions and applied research surrounding the relationship between the natural environment and human and national security Through the use of large scale research and ground level case analyses from across the globe it details how environmental factors affect human security and contribute to the onset and continuation of violent conflict It also examines the effects of violent conflict on the social and natural environment and the importance of environmental factors in conflict resolution and peacebuilding Organized around the conflict cycle the handbook is split into four thematic sections Section I Environmental factors contributing to conflict Section II The environment during conflict Section III The role of the

environment in post conflict peacebuilding and Section IV Cross cutting themes and critical perspectives This handbook will be essential reading for students of environmental studies human security global governance development studies and international relations in general **International Environmental Law** Pierre-Marie Dupuy, Jorge E. Viñuales, 2018-06-07 International Environmental Law offers a concise conceptually clear and legally rigorous introduction to contemporary international environmental law and practice The book covers all major environmental agreements paying particular attention to their underlying structure main legal provisions and practical operation It blends legal and policy analysis making extensive reference to the jurisprudence and scholarship and addressing the interconnections with other areas of international law including human rights humanitarian law trade and foreign investment The material is structured into four sections foundations substantive regulation implementation and influence on other areas of international law which help the reader to navigate the different areas of international environmental law Each chapter includes charts summarising the main components of the relevant legal frameworks and provides a detailed bibliography Suitable for practicing and academic international lawyers who want an accessible up to date introduction to contemporary international environmental law as well as non lawyers seeking a concise and clear understanding of the subject Conflict-Sensitive Conservation Carl Bruch, Geeta Batra, Anupam Anand, Shehla Chowdhury, Sierra Killian, 2023-08-10 This book provides an empirically formulated foundation for conflict sensitive conservation a field in which the existing literature relies primarily on anecdotal evidence Seeking to better understand the impact of conflict on the implementation and outcomes of environmental projects the Global Environment Facility GEF Independent Evaluation Office and the Environmental Law Institute undertook an evaluation of GEF support to fragile and conflict affected contexts Following a qualitative and quantitative analysis of documents from more than 4 000 projects the research team discovered a statistically significant negative correlation between a country's Fragile States Index score and the implementation quality of environmental projects in that country In this book the evaluation and research team explain these groundbreaking findings in detail highlighting seven key case studies Afghanistan Albertine Rift Balkans Cambodia Colombia Lebanon and Mali Drawing upon additional research and interviews with GEF project implementation staff the volume illustrates the pathways through which conflict and fragility frequently impact environmental projects It also examines how practitioners and sponsoring institutions can plan and implement their projects to avoid or mitigate these issues and find opportunities to promote peacebuilding through their environmental interventions Examining data from 164 countries and territories this innovative book will be of great interest to students and scholars of environmental management conservation international development and the fast growing field of environmental peacebuilding It will also be a great resource for practitioners working in these important fields The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license **The Oxford Handbook of Peacebuilding, Statebuilding, and**

Peace Formation Oliver P. Richmond, Gëzim Visoka, 2021 Peacebuilding and statebuilding is one of the main approaches for preventing managing and mitigating global insecurities dealing with the humanitarian consequences of civil wars and expanding democracy and neoliberal economic regimes Peace formation is a relatively new concept addressing how local actors attempt to shape or work in parallel to international and national projects The Oxford Handbook of Peacebuilding Statebuilding and Peace Formation serves as an essential guide to this vast intellectual landscape It offers a systematic overview of conceptual foundations political implications and tensions at the global regional and local levels as well as key policies practices examples and discourses underlining all segments of peacebuilding and statebuilding
