Christianity and the University Experience Mathew Guest, Kristin Aune, Sonya Sharma, Rob Warner, 2013-09-12 What impact does the experience of university have on Christian students Are universities a force for secularisation Is student faith enduring or a passing phase Universities are often associated with a sceptical attitude towards religion Many assume that academic study leads students away from any existing religious convictions heightening the appeal of a rationalist secularism increasingly dominant in wider society And yet Christianity remains highly visible on university campuses and continues to be a prominent identity marker in the lives of many students Analysing over 4 000 responses to a national survey of students and nearly 100 interviews with students and those working with them this book examines Christianity in universities across England It explores the beliefs values and practices of Christian students It reveals how the university experience influences their Christian identities and the influence Christian students have upon university life Christianity and the University Experience makes fascinating reading for anyone interested in the survival and evolution of religion in the contemporary world It offers fresh insights relevant to those working with Christian students including churches chaplaincies and student organisations as well as policy makers and
