Instead, the Golden Book of Business Presentations contains a wealth of tried and tested ingredients for making world-class presentations. It includes critical elements accompanied by a series of steps that you must follow if your presentations are to inform, influence, and inspire the audience to the actions you desire. Each chapter contains a golden rule which in turn is sub-divided into two sections: Know and How. The Know section will help you understand the concept while the How section will equip you to apply the techniques to your presentation and business environment. Whether they are to a team, key stakeholders, or a virtual slideshow, the tips in this book are designed to arm you with what it takes to get the maximum out of your presentation. Find answers to questions such as: How to introduce yourself, How to impress your audience, What you should say at the beginning, end, and between your presentation, and much more. Packed with useful tips on creating a blueprint of the presentation, to practicing and going live with it, you will find all that you need to know to make an effective presentation. **Business Presentation Strategies**

Jonathan Li, 2014-01-29 Imagine this: your audience gave you a standing ovation, your client was smiling and handing you a signed contract, your supervisor came to you and said "Thank you. We're so glad to have you." The world has changed. You can influence people and get what you want by making effective business presentations. Mastering business presentations lets you eliminate whatever's blocking you and take back control of your future. Instead of leaving your future in someone else's hands, business presentations make it all possible. Over the years, I get asked many of the same questions over and over. Questions such as: What is a business presentation? Why is business presentation important? How do I make a business presentation? How do I start a presentation? How to handle tough questions during a business presentation? And more. In this book, I answer those questions and 13 others. I also offer some suggestions on what comes next. Sign up for our free training instructions inside this book, and we've got additional tools to implement your own Business Presentation Strategies.
