After the Tall Timber Renata Adler, 2015-04-07 What is really going on here For decades Renata Adler has been asking and answering this question with unmatched urgency In her essays and long form journalism she has captured the cultural zeitgeist distrusted the accepted wisdom and written stories that would otherwise go untold As a staff writer at The New Yorker from 1963 to 2001 Adler reported on civil rights from Selma Alabama on the war in Biafra the Six Day War and the Vietnam War on the Nixon impeachment inquiry and Congress on cultural life in Cuba She has also written about cultural matters in the United States films as chief film critic for The New York Times books politics television and pop music Like many journalists she has put herself in harm s way in order to give us the news not the news we have become accustomed to celebrity journalism conventional wisdom received ideas but the actual story an account unfettered by ideology or consensus She has been unafraid to speak up when too many other writers have joined the pack In this sense Adler is one of the few independent journalists writing in America today This collection of Adler s nonfiction draws on *Toward a Radical Middle* a selection of her earliest New Yorker pieces *A Year in the Dark* her film reviews and *Canaries in the Mineshaft* a selection of essays on politics and media and also includes uncollected work from the past two decades The more recent pieces are concerned with in her words misrepresentation coercion and abuse of public process and to a degree the journalist s role in it With a brilliant literary and legal mind Adler parses power by analyzing language the language of courts of journalists of political figures of the man on the street In doing so she unravels the tangled narratives that pass for the resolution of scandal and finds the threads that others miss the ones that explain what really is going on here from the Watergate scandal to the preposterous Kenneth Starr report submitted to the House during the Clinton impeachment inquiry to the plagiarism and fabrication scandal of the former New York Times reporter Jayson Blair And she writes extensively about the Supreme Court and the power of its rulings including its fateful decision in *Bush v Gore*

West of 98 Lynn Stegner, Russell Rowland, 2012-07-25 What does it mean to be a westerner With all the mythology that has grown up about the American West is it even possible to describe how it was how it is here in the West just that in the words of Lynn Stegner Starting with that challenge Stegner and Russell Rowland invited several dozen members of the western literary tribe to write about living in the West and being a western writer in particular *West of 98* gathers sixty six literary testimonies in essays and poetry from a stellar collection of writers who represent every

state west of the 98th parallel a kind of Greek chorus of the most prominent voices in western literature today who seek to characterize the West as each of us grew to know it and equally important the West that is still becoming In West of 98 western writers speak to the ways in which the West imprints itself on the people who live there as well as how the people of the West create the personality of the region The writers explore the western landscape how it has been revered and abused across centuries and the inescapable limitations its aridity puts on all dreams of conquest and development They dismantle the boosterism of manifest destiny and the cowboy and mountain man ethos of every man for himself and show instead how we must create new narratives of cooperation if we are to survive in this spare and beautiful country The writers seek to define the essence of both actual and metaphoric wilderness as they journey toward a West that might honestly be called home A collective declaration not of our independence but of our interdependence with the land and with each other West of 98 opens up a whole new panorama of the western experience **The Elementary School Library Collection**
