Design Computing and Cognition'22 John S Gero,2023-01-04 This book reports research and development that represent the state of the art in artificial intelligence in design design cognition design neurocognition and design theories from the Tenth International Conference on Design Computing and Cognition held in Glasgow UK in 2022 The 48 chapters are grouped under the headings of natural language processing and design design cognition design neurocognition learning and design creative design and co design shape grammars quantum computing and human behavior These contributions are of particular interest to design researchers and design educators as well as to users of advanced computation and cognitive science This book contains knowledge about the cognitive and neurocognitive behavior of designers which is valuable to those who need to gain a better understanding of designing Situate, Manipulate, Fabricate Chad Schwartz,2020-08-25 This anthology of selected works outlines three critical instigators of architecture all tied directly to the tectonic makeup of our built environment place material and assembly These catalysts provide the organizational framework for a collection of essays discussing their significant influence on the processes of architectural design and construction With content from a diverse collection of notable architects historians and scholars this book serves as a theoretical structure for understanding the tectonic potential of architecture Each chapter is thematically driven consisting of a pair of essays preceded by an introduction highlighting the fundamental issues at hand and comparing and contrasting the points of view presented Situate Manipulate Fabricate offers an opportunity to explore the essential topics that affect the design and construction as well as the experiential qualities of our built environment PAGON Espen Johnsen,2023-10-05 Through the 1940s and 1950s PAGON Progressive Architects Group Oslo Norway was an alliance of young CIAM affiliated Norwegian architects known for their innovative joint projects As a group PAGON went on to become largely overlooked in the history of modern architecture even though its individual members which included Sverre Fehn J rn Utzon Arne Korsmo and Christian Norberg Schulz became defining figures in Scandinavian and international modernism This book tells the story of PAGON for the first time offering an impressive account of the group s projects buildings and approach and demonstrating why PAGON s projects are ripe for reappraisal in the international history of modern architecture It shows how PAGON s architecture constitutes a unique continuity between the Scandinavian functionalism of the late 1930s and the modern movement in the US and an important transitional stage before the emergence of the better known neo avant garde groups within CIAM and Team 10 Published as part of the Bloomsbury Studies in Modern Architecture series which brings to light the work of significant yet overlooked modernist architects this book fills a gap in our understanding of mid century modern architecture and highlights the internationally diverse nature of the modern movement **Innovation**

in Urban and Regional Planning Alessandro Marucci, Francesco Zullo, Lorena Fiorini, Lucia Saganeiti, 2024-02-29 This book gathers the proceedings of the INPUT2023 Conference on Innovation in Urban and Regional Planning The 12th International Conference INPUT was held at the University of L'Aquila Italy on September 6-8 2023 and brought together international scholars in the fields of planning civil engineering and architecture ecology and social science to strengthen the knowledge on nature based solutions and to enhance the implementation and replication of these solutions in different contexts The book represents the state of the art of modeling and computational approaches to innovations in urban and regional planning with a transdisciplinary and borderless character to address the complexity of contemporary socio ecological systems and following a practice oriented and problem solving approach Computational tools technologies data mathematical models and decision support tools are explored for providing innovative spatial planning modeling methodologies **Comparison**

Fabrizia Berlingieri, Francesca Zanotto, 2020 Design Driven Research encompasses many different forms of research in which architectural design and artistic practices and the results thereof are implemented as a means to generate and disseminate new knowledge This includes contemporary alternative formulations of the field like Artistic Research Research by Design Practice Based Led Research Creative Practice Research CA2RE is a joint Erasmus strategic partnership of nine European universities in association with EAAE ELIA and ARENA and it supports early career researchers and Ph.D. students to improve the quality of their research CA2RE explicates the transformative and innovative power of highly individual strategies in artistic research the diversity of research traditions and the integrative nature of architectural design research able to face the contemporary knowledge fragmentation from humanities social sciences and technology Along with the CA2RE timeline project the focus of Milano conference narrows by comparing design strategies and tactics applied to highlight common approaches and methodological specificities within the consortium and the broader community involved

Di pietra e di piuma Aleksa Korolija, 2024-07-16 Di piuma e di pietra si interroga sulla differenza tra monumento e memoriale e più in particolare come l'architettura e il progetto dello spazio possano contribuire alla costruzione e alla percezione della memoria Il problema di dare forma all'eterno rappresenta un compito complesso e inesauribile che chiede al progettista lo sforzo di immaginare il contenuto simbolico e lo spazio tangibile dove i significati metafisici possano essere veicolati attraverso l'esperienza della forma costruita Il testo si concentra sul memoriale come spazio architettonico restringendo la ricerca alla disciplina della composizione architettonica e identificando nell'opera di Bogdan Bogdanovi 1922-2010 l'esempio più significativo del secondo dopoguerra europeo Eludendo il facile ricorso al gigantismo delle forme o alla rivisitazione formale di stili storici l'architetto belgradese reinterpreta l'architettura funeraria antica affiancando lo spazio memoriale al problema della monumentalità L'argomentazione del libro dal piano simbolico si sposta alla concretezza del manufatto Combinando materiali d'archivio la traduzione di testi dal serbo croato fino ad ora inediti in italiano e l'esperienza diretta il libro identifica alcuni temi validi e ancora spendibili per la progettazione di uno spazio della memoria **The**
