Asia Future Shock Asia Future Shock:

Asia Future Shock M. Backman, 2007-10-24 China is the world's biggest market for cigarettes By 2020 300 million Chinese will be elderly By 2010 China will have 7 of the world's biggest shopping malls This book is an invaluable asset for corporate planners and strategists futurologists and anyone developing business in Asia as Backman provides an essential map for Asia's future **The Socially Constructed and Reproduced Youth Delinquency in Southeast Asia** Jason Hung, 2023-09-14 Analysing the causes and effects of a variety of youth delinquent behaviours both digital and conventional this book aligns insightful sociological inquiry with an ongoing regional phenomenon **How Asia Can Shape the World** J. Ørstrøm Møller, 2011 Asia will redraw the map of economic progress over the next twenty five years Growth is necessary to solve economic and social problems but harder to achieve as the age of plenty gives way to the age of scarcities The challenge opens the doors for an Asian economic model based on shifting of productivity for the individual to groups ecological productivity instead of economic productivity and a reversal to traditional Asian values less materialistic than Western values A new paradigm for economic thinking emerges to replace the one launched in the West 200 years ago

Asia and Pacific Dept, 2012-04-13 Barring the realization of downside risks to the global economy growth in the Asia and the Pacific region is expected to gain momentum over the course of 2012 according to this report and now projected at 6 percent in 2012 rising to about 6.2 percent in 2013 Stronger economic and policy fundamentals have helped buffer the region's economies against the global financial crisis by limiting adverse financial market spillovers and ameliorating the impact of deleveraging by European banks but a sharp fall in exports to advanced economies and a reversal of foreign capital flows would have a severe impact on the region The region's policymakers now face the difficult task of calibrating the amount of

insurance needed to support stable noninflationary growth Some Asian and Pacific economies can afford to lengthen the pause in the normalization of their macroeconomic policies that was initiated when the global recovery stalled late in 2011 others may need a faster return to more neutral policy stances Similarly the pace of fiscal consolidation should be calibrated to country specific circumstances Additional chapters in the report discuss whether China is rebalancing and the particular challenges facing Asian low income and small island economies
