Developmental States beyond East Asia Jewellord T. Nem Singh, Jesse Salah Ovadia, 2020-05-21 This comprehensive volume reviews recent scholarship regarding the role of the state in economic development With a wide range of case studies of both successful and failed state led development the authors push the analysis of the developmental state beyond its original limitations and into the 21st century New policies institutional configurations and state market relations are emerging outside of East Asia as new developmental states move beyond the historical experience of East Asian development The authors argue for the continued relevance of the developmental state and for understanding globalization and structural transformation through the lens of this approach They further this concept by applying it to analyses of China Latin America and Africa as well as to new frontiers of state led development in Japan and the East Asian developmental states This book expands the scope of research on state led
