Chop Suey and Sushi from Sea to Shining Sea Bruce Makoto Arnold, Tanfer Emin Tunc, Raymond Douglas Chong, 2018-06-15 The essays in Chop Suey and Sushi from Sea to Shining Sea fill gaps in the existing food studies by revealing and contextualizing the hidden local histories of Chinese and Japanese restaurants in the United States The writer of these essays show how the taste and presentation of Chinese and Japanese dishes have evolved in sweat and hardship over generations of immigrants who became restaurant owners chefs and laborers in the small towns and large cities of America These vivid detailed and sometimes emotional portrayals reveal the survival strategies deployed in Asian restaurant kitchens over the past 150 years and the impact these restaurants have had on the culture politics and foodways of the United States Some of these authors are family members of restaurant owners or chefs writing with a passion and richness that can only come from personal investment while others are academic writers who have painstakingly mined decades of archival data to reconstruct the past Still others offer a fresh look at the amazing continuity and domination of the evil Chinaman stereotype in the foreign world of American Chinatown restaurants The essays include insights from a variety of disciplines including history sociology anthropology ethnography economics phenomenology journalism food studies and film and literary criticism Chop Suey and Sushi from Sea to Shining Sea not only complements the existing scholarship and exposes the work that still needs to be done in this field but also underscores the unique and innovative approaches that can be taken in the field of American food studies

Unpalatable Carrie Helms Tippen, 2025-01-15 The cookbook genre is highly conventional with an orientation toward celebration and success From glossy photographs to heartwarming stories and adjective rich ingredient lists the cookbook tradition primes readers for pleasure Yet the overarching narrative of the region is often one of pain loss privation exploitation poverty and suffering of various kinds While some cookbook writers go to great lengths to avoid reminding readers of this painful past others invoke that pain as a marker of southern authenticity Still others use stories of southern suffering as an opportunity to make space for reconciliation reparation or apology for past wrongs In *Unpalatable Stories of Pain and Pleasure in Southern Cookbooks*

author Carrie Helms Tippen attempts to understand the unique rhetorical situation of the southern cookbook as it negotiates a tension between the expectations of the genre and the prevailing metanarratives of the southern experience one focused on pleasure and the other rooted in pain Through an analysis of commercially published southern cookbooks from the 1990s to the present Tippen examines the range of rhetorical purposes and strategies writers have employed some of which undermine the reality of a painful past and cause harm or violence and others which serve as tools for truth and reconciliation
