Mosby's Pathology for Massage Therapists - E-Book Susan G. Salvo, 2013-02-11 Written by a massage therapist for massage therapists, Mosby's Pathology for Massage Therapists 3rd Edition provides direct information along with focused recommendations. Coverage of over 340 pathologies helps you appropriately tailor massage treatment, and more than 750 full-color photographs and illustrations make it easier to recognize common pathologies. This edition includes a new chapter on geriatric massage and has been extensively reviewed by over a dozen experts in the massage and medical fields. Written by massage therapy educator and practitioner Susan Salvo, this resource provides the pathology knowledge you need to succeed on licensure and certification exams and in practice. A traffic light icon appears before each pathology in the book, designating whether massage is contraindicated (red), local contraindication (yellow), or indicated (green) for that particular pathology. Consistent format for each chapter makes it easy to find key information with learning objectives, list of pathologies, system overview, and pathologies including description, etiology, signs and symptoms, treatment, and massage considerations. Student-friendly features in each chapter include learning objectives and self-tests that measure your comprehension. Medical Technology boxes highlight special populations such as clients in wheelchairs or with pacemakers and explain what the medical device is and what special precautions or contraindications you should be aware of before working on these clients. Spotlight on Research boxes summarize recent studies of massage therapy and its effects. Student resources on an Evolve companion website include interactive activities, video clips of techniques, animations, the Body Spectrum coloring book, flashcards, review questions, additional case studies, an image collection, an audio glossary, study tips, stress busting tips, research updates, and more. Mosby's Pathology for Massage Therapists Online reinforces content covered in the book and provides a dynamic way to learn key concepts with features including recall activities, rollover glossary terms and definitions, animations, quizzes, and Clinical Tips boxes. scenarios and downloadable assessment tools **Personalized Nutrition in Chronic Kidney Disease, 2nd edition** Lara Caldiroli, Alice Sabatino, Andreana De Mauri, 2024-11-08 Nutritional status is a crucial prognostic factor in chronic kidney disease CKD patients. The nutritional approach depends on the stage of renal disease, patients' comorbidities, proteins catabolism, and the presence of malnutrition. The gradual and progressive worsening of kidney function, characterized by a reduced glomerular filtration rate, carries many challenges for both young and elderly patients. Dietetic nutritional therapy (DTN) has an important role in the prevention and in the progression of Chronic Kidney Disease. An appropriate nutritional approach contributes to the prevention and control of signs, symptoms, and metabolic complications of CKD, such as hyperkalemia, hyperphosphatemia, and metabolic acidosis. It also helps avoid malnutrition and protein energy wasting (PEW). Several dietary approaches have been proposed, but the most successful nutritional regimen is the one tailored on patients' needs. This Research Topic is open for original articles, narrative review, systematic review, and meta-analysis focusing on personalized nutrition in patients with CKD on both conservative and replacement treatments. Suggested topics relating to renal nutrition and chronic kidney disease may include but are not limited to: Use of amino acids or keto analogues; supplementation in CKD patients in conservative therapy or in dialysis; Strategies to improve dietary adherence; Psychological aspects of nutritional adherence; Nutritional indications in inflamed CKD patients; Interaction between diet, microbiota, and comorbidities; Personalized nutritional counseling; Strategies to avoid malnutrition and PEW. **Clinical Examination Vol 2 - E-Book** Nicholas J.
